More About the Byron Scandal—The Times on French Affairs—Conference between General Prim and the Spanish Ambassador—American "Ingratitude" Discussed—Cuban Insurrection Must be Suppressed.

ENGLAND.

[By Telegraph to the Pittsburgh Gazette.]

LONDON, Sept. 13.—The *Daily News* contains another letter from Wm. Howitt on the charges against Lord Byron. He says Lady Byron has condemned herself by the breach of an honorable silince. Irrepairable wrong was done Byron, by the destruction of the papers containing his justification, and a solution of the question is impossible except on exparte evidence.

Dr. Forbes Winslow, in a public communication on the same subject, holds that the theory of the mental aberation of Lady Byron cannot be maintained.

The *Times*, in an editorial to-day, commenting on the Emperor's illness and the publication of the *Senatus Consultum*, says the person of the Sovereign is of secondary importance if personal government is ended. It matters little who is Emperor or Regent, the essential question is who is Minister, on what terms does he hold office, and on what principles does he conduct the administration. No one can govern except through the Cabinet and enjoying the confidence of the majority of the people.

FRANCE.

PARIS, September 13.—The tempest yesterday prostrated the telegraph wires, and communication in every direction was temporarily interrupted.

The Emperor's health is better to-day. It is asserted the Empress will set out again on her voyage to the east.

Gen. Prim, while at Vichy, had a conference with the Spanish Ambassador to England and France on the subject of the communication received from Washington. It is rumored that the disposition of the people of the United States to interfere in the affairs of Cuba was denounced at the conference as an act of ingratitude to Spain, and the hope was expressed that Spain would reply energetically to the officious manifestations of the Americans.

PARIS, Sept. 13.—There is no authority for the rumor purporting to state what took place at the conference of General Prim and the Spanish Ambassador at Vichy.

Le Public condemns the Americans for intermeddling in the Cuban question, and thinks the Spanish government should resent their interference.

SPAIN.

MADRID, September 13—The *Imparcial* insists on the necessity of the speedy suppression of the Cuban insurrection.

A part of the reinforcements for Cuba have sailed from Barcelona, and other detatchments will follow from Carthagena.

Differences are growing up between the Progressive and Unionist parties.

FINANCIAL AND COMMERCIAL.

FRANKFORT, September 13—*Evening.*—United States 5-20's bonds closed active at 87¾.

ANTWERP, September 13—*Evening.*—Petroleum closed firm at 55¾f.

HAVRE, September 13.—Cotton closed quiet at 158½f. on spot.

LONDON, September 13.—Consols 92⅞; account, 93. Five-Twenty bonds: '62s, 83⅜; '65's old, 82⅞; '67s, 81⅞: Eries, 25; Illinois, 94¼; Great Western 26½. Stocks quiet.

LIVERPOOL, September 13.—Cotton is dull; uplands 13⅝d.; Orleans 13½d; sales of 7,000 bales. Breadstuffs firm; Corn 29s. 6d. Pork 111s.

LONDON, Sept. 13.—Tallow 46s. 6d. Petroleum firmer. Sugar dull.

PARIS, Sept. 13—11 P. M.—Bourse closed quiet; Rentes 71f. 25c.

NEW YORK CITY.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, September 13, 1869.

President Grant and wife left this morning for Washington.

The preliminary investigation of the charges against Sheridan Shook and others does not shed any new light on the allegations of fraud.

The stable of James McMann, at Hunter's Bend, was burned to-day with five valuable horses, including the famous mare Cora, worth $15,000. McMann's loss is $75,000. The stable of Mr. Brown, adjoining, with five horses, and two dwellings were also burned. Total loss nearly $150,000.

Myrtle Avenue Park Hotel, Brooklyn, was burned last night. Loss, $10,000.

The sash and blind factory of J. T. Brakawa, at Elizabeth, N. Y., with two adjoining stables, was burned on Sunday. Loss, $20,000; little insurance.

Donations in New York and Brooklyn for the Avondale sufferers exceed three thousand dollars.

Advices from Scranton state that the excitement is subsiding, and the miners are all at work, except in the Avondale mine, where no labor probably will be done for a year.

HUMBOLDT CELEBRATIONS.

[By Telegraph to the Pittsburgh Gazette.]

EVANSVILLE, IND., September 13.—The city is filling up with people from the surrounding towns, coming to attend the Humboldt Centennial to-morrow. The Opera House is densely crowded and the exercises are interesting, consisting of German and English speeches and music by the orchestras and singing societies.

LOUISVILLE, September 13.—The celebration of the Centennial Anniversary of the birth of Humboldt commenced to-night by a grand instrumental and vocal concert given by all the German singing societies and the leading professional and amateur talent of the city. The attendance was very large.

PHILADELPHIA

Political—Democratic Convention—Declination of Candidates—Humboldt Procession—Democratic Candidates Resign—New Ticket in the Field—Avondale Relief Fund.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, September 12.—Considerable commotion has been caused in the Democratic party here by the declination of S. Gross Fry, candidate for City Treasurer. A meeting of the various candidates was held yesterday, at which it was determined that all should resign and take measures to form a new ticket. A crowd of outsiders, however, attended the meeting and insisted on the nomination of a new ticket said to be more objectionable to the party than the present one, and the meeting broke up, the undertanding being that none of the candidates should withdraw unless all did together. To their surprise, a card appeared to-day from Mr. Fry, withdrawing, and advising the other candidates to do the same. Another meeting of candidates was held to-day, but the result is unknown.

The grand procession of the Germanic societies and German Masons to-day proceeded to Fairmont Park, where the corner stone of the Humboldt monument was laid. On the conclusion of the ceremonies, festivals were held in the outskirts of the city.

PHILADELPHIA, September 13.—All the Democratic candidates for city offices withdrew this morning. The following is reported as the new ticket selected: Clerk of Quarter Session—D. W. Sellers. City Treasurer—W. C. Patterson. Recorders of Deeds—John G. Brenner and —— Hardy. Prothonotary of District Court—John O. James.

The Treasurer of the Avondale Relief Fund has received $17,000.

The parties charged with attempting to murder Revenue Officer Brooks were up for a further hearing to-day. No evidence of importance was produced. Stockton, Keenan and Agen were held in $5,000 bail for a further hearing. The doctors report that Brooks may die at any moment.

SCRANTON, PA.

The Late Disaster—Feeling Among the Miners—Cause of the Fire.

[By Telegraph to the Pittsburgh Gazette.]

SCRANTON, Pa., September 13.—There is little subsidence of the feeling among the miners concerning the disaster, and the new theory developed by the testimony is discussed with vehemence, and the probability that the incendiarism will be proved is eagerly watched for. It is generally and sincerely believed that the shaft was fired, but no miner is so unjust now to charge the crime upon any nationality, nor is it even supposed that the person committing the horrible act intended to accomplish the death of a single miner, but only to frighten them and stop the working of the mine for an indefinite period. Acrimonious feeling have existed and always has, between the Welsh and other nations, but never produced any outrage of consequence upon either person or property, and the nationality that suffered almost exclusively by the disaster, is ready to admit that the first outbreak of revengeful feelings would not have been of such a diabolical character. That the shaft was fired they believe, but not with the intent to take life. When Messrs. Benjamin Hughes, Thomas Carson and Thomas Watkins come up to give their evidence at the inquest on Tuesday next, a flood of light will be thrown upon this mysterious question.

WILKESBARRE, September 13.—The Miners' Union unhesitatingly state that no one believes the fire at the Avondale mine was the work of an incendiary. They regard that such report is a subterfuge to turn the public mind from the responsibility resting on the railroad company.

ST. LOUIS.

Grand Council of Red Men—Celebration by the Druids.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, September 13.—The Great Council of the Improved Order of Red Men will hold its annual session here tomorrow. Representatives are present from Ohio, Pennsylvania, District of Columbia, Michigan, Tennessee, Georgia, Alabama, Missouri, Maryland, Kentucky, Louisiana, Virginia, Texas, California and Indiana.

The order of Druids celebrated the twentieth anniversary of the establishment of the order in Missouri to-day. Eighteen groves and three chapters, numbering from twelve to fifteen hundred members, paraded the principal streets this morning with banners and music, and this afternoon went to Wrig's cave, in the western part of the city, where an address was delivered by Hon. Anthony Sambold, of Louisiana, and another in German by Herman Rupell. General festivities are indulged in, and a ball and banquet are in progress to-night.

Quite a number of leading citizens and railroad men left here this afternoon by the Pacific Railroad, to celebrate the completion of the road between Levenworth and Atchison, Kansas, which is in reality an extension of the Pacific Road.

CHICAGO.

Destructive Fires—Gymnast Killed—Fatal Accident.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, Sept. 13.—The depot of the St. Paul & Sioux City Railroad at Ottawa, Minn., was struck by lightning yesterday and burned, together with their contents, including several car loads of oats.

It has has rained almost continously at St. Paul since Saturday evening.

One of the Gilliam brothers, gymnasts connected with Johnson's circus, while going through his performance at Freefort, Ill, on Saturday night, missed his hold and fell to the ground, causing injuries which resulted in his death in a few hours after. He was esteemed an excellent performer.

On Tuesday last Wm. Kelly, son of Mr. R. Kelly, Superintendent of Schools in Whiteside county, Illinois, while out hunting was killed by the accidental discharge of his gun. His body was not discovered until two days after.

There have been six fires in this city during the past thirty-six hours. The entire loss will easily reach $50,000.

SECOND EDITION.

FOUR O'CLOCK, A. M.

THE CAPITAL.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, September 13, 1869.

EXAMINING SURGEON APPOINTED.

W. Griffiths. M. D., of Louisville, Ky., late Major of the Second Kentucky Cavalry, was to-day appointed Examining Surgeon for Kentucky under the pension law.

AFTER THEM.

WASHINGTON, September 13.—Supervisor Tutton was in Washington to-day consulting Commissioner Delano concerning the recent seizures in Wilmington, Delaware. Mr. Tutton believes he has a strong case against the parties. A large distillery, two rectifying houses and a wholesale dealer are all implicated. Commissioner Delano has ordered Mr. Tutton to proceed against them in the Courts.

OREGON CLAIMS.

Hon. John Ross and A. J. Johnson, British and American Commissioners for the adjustment of the claims under the Oregon treaty, have pronounced an award of $650,000 in gold, to be paid by the United States to the Hudson Bay and Puget Sound Companies in extinction of their rights in the territories west of the Rocky Mountains, irrespective of the claims for the navigation of the Columbia river.

ADMIRAL HOFF'S REPORT.

The report of Admiral Hoff concerning his investigation of the facts attending the execution of two Americans at Santiago de Cuba, has been sent to the Department of State, with a view to the foundation of a claim for damages.

THE REASON.

It is officially stated that the design in recently placing many naval vessels in commission was merely to prevent them from injury which would result from keeping them in order.

LENDING A "STRONG ARM."

The destination of Captain Burns' detachment of cavalry, who are going hence to lend a strong arm to Collectors of Internal Revenue, is ascertained to be Southwestern Virginia.

MAINE ELECTION.

[By Telegraph to the Pittsburgh Gazette.]

PORTLAND, September 13.—The election is very quiet and the vote is probably smaller than last year, but the parties will be relatively nearly the same as then. The Hickborn ticket takes off less than ten per cent. of the Republican vote in places heard from, which will not be enough to defeat an election by the people.

PORTLAND, September 13, 9 P. M.—The State election passed off very quietly, as but little interest was felt, and the vote is comparatively small. Returns come in slowly. Fourteen towns give Chamberlain 3,593, Smith 3,174, and Hichborn 661 votes. Last year the same towns gave Chamberlain 8,661, and Pillsbury 5,982 votes, being a majority of 1,708 votes against 2,679 last year. Bangor, Augusta, Belfast, Rockland and Lewiston all give reduced Republican majorities. Biddleford gives a Democratic majority.

Hichborn's majority will not exceed 6,000.

AUGUSTA, September 13—9 P. M—Seventy-six cities and towns give Chamberlain 19,167, Smith 13,642, Hichborn 2,063; Chamberlain's majority 3,462. The same towns last year gave Chamberlain 31,633, Pillsbury 21,317; Chamberlain's majority 10,616. This ratio, if maintained, shows a total of 85,000, and Chamberlain's election by 6,000 majority.

PORTLAND, ME., September 13—*Midnight.*—One hundred towns give Chamberlain 23,732, Smith 16,850, Hichborn 2,385. Last year these towns gave Chamberlain 37,076, Pillsbury 26,404. Chamberlains majority this year 4,497 again st 10,672 over Pillsbury last year. This is almost half the State, and indicates a total vote of 88,000, of which Chamberlain should have 48,000. Smith 35,000 and Hichborn 5,000, so that Chamberlain's majority should be about 8,000 over all others, against 19,268 last year over Pillsbury. The total vote last year was 131,782. The Republicans last year carried fifteen of the sixteen counties this year they lose one or two more. They may probably elect twenty-seven of the thirty-one Senators, although on account of split tickets there may be no choice in a few cases as it requires a majority to elect Senators. The Republicans lose a number of representatives on account of Hichborn's vote, as in the case of the Representative, a plural elects; but they retain a large majority in the House. As far as heard from, the Hichborn party have elected no candidate.

The following is the vote in this city: Chamberlain, Republican, 1,799: Smith, Democrat, 829; Hichborn, radical temperance, 140. Last year the vote stood: Republican, 3,357; Democratic, 2,379.

—Wellsville, Ohio, on Sunday, 12th, was visited by a destructive fire, originating in George Wells' wool house, and the flames spreading so rapidly that it was found impossible to save the entire solid frame block adjacent. In an hour and a half it was in ruins, together with a frame building in the rear. The estimated losses are: George Wells & Sons, two frame buildings, 160,000 lbs. wool and $3,000 worth of groceries, in all $11,000; covered by insurance. Joseph Bradley, dwelling and portion of furniture, $1,700; insurance, $500. Wm. Lawrence, dwelling, $1,500; no insurance. A. M. Stevens, liquor store and dwelling, contents saved, $2,500. Total loss, $30,000. The fire is believed to have been the work of an incendiary.

—A few days ago, near Stanford, Ky., a party of thirty armed negroes rescued a negro while being conveyed to prison by some of the county officers, who had arrested him for drawing a pistol and attempting to kill another negro at a fair. Some of the parties concerned in the affair have been arrested, but the ringleader is still at large.

—The Central Pacific Railroad Company have succeeded in breaking up a gang of incendiaries, banded for the purpose of destroying its fuel, water tanks and stations. east of the mountain. Among the parties arrested are those who set fire to the snow sheds, near the Summit, a few weeks since.

Additional Markets by Telegraph.

ALBANY, September 13.—Beef market generally unchanged, good butchering steers were readily taken at full prices, and in some instances at a fractional advance, while medium and common, which are abundant, sell slowly; Kentucky steers sold to-day at $9@9¼@9⅝, all heavy weights; medium weights sold at ¼c. less than last week's quotations; light weights sold low as $6 and medium Kentucky steers at $8@8½. Sheep and lambs at ¼@½c. higher. Hogs quiet, sales of Michigan at $9@9½; New York do at $9½@10; Illinois do at $10½10¾.

CHICAGO, Sept. 13.—Markets at afternoon board quiet and steady; early sales No. 2 wheat at $1,24½, later sales at $1,24, closing at $1,23¼@1,24 seller this month, $1,22½ seller October for No. 2. Corn opened quiet with limited sales at 80¾@81c seller this month, closing at 81@81¼ seller last half Sept., sold at 81¼@81½@83 buyer this month. Oats quiet at 43 for No. 2 seller this month, held at 42¼ seller October. In the evening markets ruled quiet and steady, nothing done in Lake freights or provisions.

THE REVOLUTION IN CALIFORNIA TRAVEL.—The glory of steamship travel to California is departed, however; the romance, the comedy, the tragedy of a trip to or from California, down to and through the tropics and across the Isthmus, and back again on another shore, are all over. The steamers will be deserted of the gay, the rich, and the beautiful; and love has lost one of its great American opportunities. How can sentiment flourish on a whistling, wheezing, bouncing railroad train, every passenger begrimmed with dust, and denied all opportunity of clean clothes, even of a tolerable toilet? Only the coarse freight, only the poor emigrants, to whom money is more than time, will now occupy the steamers. The world henceforth goes with Pullman by rail; and the poetry of the California journey, which has so long fluttered in white linens and delicate muslins, and lounged along broad and canopied decks, or cooed in capacious staterooms, is supplanted by the plain prose of repellant cloth and paper collars, and a single seat and a narrow berth in a crowded car.—*Our New West.*

ANALYSIS of the contents of a dead woman's stomach, in Chicago, proved the presence of "tri-sulphide of arson," according to a brilliant chemist.

CITY AND SUBURBAN.

Devore Lodge I. O. O. F.—Dedication of the New Hall.

Yesterday afternoon over two hundred members of the order of Odd Fellows in this city, embarked on the train for Wilkinsburg, to participate in the dedicatory exercises of the new hall of Devore Lodge. The hall is located in the second story of a building owned by the lodge, and specially constructed for the purpose. Through the princely liberality of Mr. W. H. Devore, after whom it is named, the furnishing and fitting up of the building is of the most perfect character, and not excelled by anything of the kind west of the mountains.

The visitors from Pittsburgh were met at the station by the members of "Devore" and escorted in procession headed by the Great Western Brass Band to the Hall, when the dedicatory ceremonies and installation of the officers took place. The services were of that impressive and beautiful character prescribed for such occasions and were conducted by the Grand Master of the Order assisted by a number of other officers of the Grand Lodge. At the conclusion of these ceremonies the Hall was thrown open to visitors, not connected with the order, and in a short time was crowded with ladies and gentlemen from the surrounding country and the city. The company after examining the interior of which all spoke in the highest commendation, were entertained with an eloquent address by Rev. J. J. McIlyar, of Allegheny, after which the meeting adjourned.

In the evening visitors and members partook of a banquet, gotten up in excellent style, at the conclusion of which the visitors from the city returned at a late hour.

The affair was an exceedingly pleasant and enjoyable one throughout, and passed off in the most harmonious manner, leaving agreeable recollections of the occasion with every participant.

The Connellsville Railroad and Cherry Alley.

A meeting of the owners of property on Cherry alley was held at the Second Ward School House last evening.

Dr. Biddle Arthurs was called to the chair, when the call for the meeting was read, requesting all property holders and agents for property on Cherry alley to meet for the purpose of taking some action in reference to the occupancy of that thoroughfare by the Connellsville Railroad Company's track. Mr. Arthurs said he thought that matter had been settled by the action of Councils.

Mr. George W. Leonard explained that he had been watching the matter carefully and thought there was cause for alarm on the part of the property holders in the vicinity. He then reviewed the matter at some length, and contended that undue influences were being used to accomplish the designs of the Company. That several newspapers had published articles in favor of the Cherry alley route, one of which he was satisfied had been "bought over," while the circumstances favored a similar conclusion in regard to the others.

The speaker continued his remarks at some length, and finally closed by suggesting that a committee be appointed to watch the movements of the railroad company, with a view to prevent a grant of the right of way through Cherry alley.

The Committee was accordingly appointed, as follows: Dr. Biddle Arthurs, George W. Leonard, J. R. Weldin, Stephen A. Vetter, T. B Hamilton, A. S. Bell, David Sims, John C. Dunn, R. Deaker.

The meeting then adjourned, Dr. Arthurs announcing that the Committee would meet at his office Monday evening at seven o'clock.

Amusements.

OPERA HOUSE.—The Opera House was filled to its utmost capacity last evening, on which occasion the charming Worrell Sisters appeared in the "Grand Duchess." The expectations of the public were raised to an exceedingly high point, and we are pleased to say that those expectations were fully realized. The piece will be repeated this evening.

PITTSBURGH THEATRE.—Mr. James Taylor, the celebrated London comique, was welcomed at the Pittsburgh Theatre last night by a large audience. The "Old Drury" was packed from pit to dome, and everybody present was well pleased with the entertainment.

MASONIC HALL.—The celebrated Davenport Brothers appear at Masonic Hall this, Tuesday evening. Go to see them.

ACADEMY OF MUSIC.—The Gregory Troupe appear at the Academy of Music, Monday evening, the 20th inst., instead of the 30th, as announced yesterday morning.

THE CIRCUS.—Ames' New Orleans Circus, not a traveling catchpenny sideshow, but one of the best appointed and largest establishments of its character in the world, will visit this vicinity the present week and give two exhibitions in the Allegheny Diamond, Friday and Saturday next. A menagerie and circus combined under one canvas, and of such superior merits, affords an entertainment interesting and instructive, which appeals to the patronage of the entire community. Colonel Ames will doubtless find his canvass crowded at every entertainment.

Horse Thief Arrested.

Before Justice Heisel, of East Birmingham, John Kearns made an information charging Joseph Weldy with stealing a horse. The prosecutor resides in Mifflin township, and attended the horse market on Irwin street last Saturday, for the purpose of selling a horse. While Mr. Kearns was temporarily absent from the yard, where the horse was tied, the animal was stolen. On Sunday morning the owner succeeded in finding his horse at the livery stable of Mr. Fitzsimmons, on Seventh street. It was ascertained that Weldy had left the horse there, and information was made accordingly. He was arrested and held to bail for a hearing. The horse is valued at one hundred and fifty dollars.

Trains will start from the Union depot this afternoon at two o'clock for Millvale, in order to accomodate the large number who are desirous of attending the Volksfest.

RECEPTION OF THE PRESIDENT.

Meeting of Citizens—Arrangements for the Reception—Appointment of Committees—Dispatch from the President.

As announced in the GAZETTE of yesterday morning, President Grant will arrive in this city at one o'clock, P. M., today, and from the following dispatch, in reply to an invitation from the Mayors Brush, of this city, and Drum, of Allegheny, to accept the hospitalities of the two cities, will remain one night.

"HARRISBURG, Sept. 13, 1869.—*To Jared M. Brush, Mayor of Pittsburgh. Simon Drum, Mayor of Allegheny.*

It will afford me great pleasure to accept your invitation and remain over night in Pittsburgh.

U. S. GRANT.

A meeting of the members of Councils and citizens was held at the Mayor's office last evening, to make arrangements for the reception of the President, and to extend to him the hospitalities of the city.

The meeting was organized by calling W. S. Purviance, Esq., to the Chair.

The following Committees were then appointed:

COMMITTEE ON DECORATIONS

The following named gentlemen were appointed a Committee to have City Hall decorated:

Thos. J. Bigelow, Capt. W. B. Cook, Capt. James McLanahan, Thos. Phelps, Maj. Samuel Kilgore, L. E. Johns, Dr. E. S. Umbstetter, W. B. Rodgers and Geo. W. Silvey.

COMMITTEE OF INVITATION.

The following named gentlemen were appointed a Committee of Invitation from the Humboldt Executive Committee, with instructions to invite the President to visit the Pic-nic grounds this afternoon and witness the Volksfest:

C. Meyran, August Hartzel and Dr. Jno. A. Meinertzhazen.

THE PROGRAMME.

The President will arrive at the Union Depot, as stated, at one o'clock, where he will be formally received by the Reception Committees, after which the party will be conveyed to the Monongahela House in open carriages; where a public reception will take place. The President and party will then be conducted to the Volksfest, accompanied by the Committee of Reception and Arrangements, and return to the Monongahela House for supper.

At eight o'clock the President will be serenaded at the Hotel by the Second Ward Grant Club of Pittsburgh, the first organized Grant Club in the nation, after which he will be escorted to City Hall by the Club, when a public reception will be held under the auspices of the Republican County Executive Committee.

The members composing the several committees are requested to meet at the Mayor's office in this city, promptly at ten o'clock A. M., and the members of the Second Ward Grant Club will meet at Wilkins' Hall at six P. M., sharp.

To the Honorable Jared M. Brush, Mayor of the City of Pittsburgh:

DEAR SIR: The undersigned petitioners beg to call your attention to the pitiful condition of the sufferers who lost their husbands, fathers and children in the great, disastrous and terrible catastrophe that occurred at Avondale, Penna., and we respectfully ask you to call a meeting at your earliest opportunity, of the citizens of this influential, Christian community, and adopt means to aid and relieve the sufferers of this woeful calamity.

MAYOR'S OFFICE, PITTSBURGH, PA., September 14, 1869.

In accordance with the above suggestion, I hereby call a meeting of the citizens at Wilkins Hall, Fourth avenue, Wednesday, September 15th, at two o'clock P. M., for the purpose of taking measures to raise funds for the relief of the families of the miners who lost their lives by the late terrible calamity.

JARED M. BRUSH, Mayor.

ENGAGEMENTS.

(From the Saturday Review.)

The classification of engagements according to their duration gives us several interesting types. Some engagements are of a short but rapturous kind; others are of a protracted and Platonic character. Some are contracted for a fixed term of years, as the engagement of a minor to marry when he attains his majority or of a widow to wed after two years' inconsolability. Others are terminable after an indefinite period, where a fellow of a college engages to marry as soon as he gets a living, or where a young lady promises to make her lover happy when he can show that he is able "to maintain her in the style to which she has always been accustomed, and to supply her with the comforts and refinements which she has a right from her position in society to expect." Other engagements may be considered as terminable at pleasure, such as those projected between officers of small means and the notorious flirts of a garrison town, which, it is pretty well understood, are only designed to last until the regiment is moved to fresh quarters, or till Providence provides the fair coquette with a more handsome or more substantial lover. These, with many others which it is unnecessary to enumerate, are various species of engagments differentiated according to the nature of their duration; But the division of the engagements with which society is most familiar, and the one which will occur to all parental minds as the most important, is the simple division of them into Long and Short. The genuine old-fashioned Long Engagement, of that life-long type with which our grandmothers and great-aunts were familiar, has happily almost ceased to exist. Any woman belonging to the professional ranks of the middle class, who is more than fifty years old, will be able to recall several instances of men, generally Fellows of Colleges, who, when young, contracted engagements which they were unable to fulfill until they had reached that time of life at which it is not very usual, or very seemly, either to marry or be given in marriage. Such instances of life-long engagements were by no means rare fifty years ago. The College Fellow of twenty-five having engaged himself to a young girl of twenty, and having no sure expectation of patronage outside of his College, could not then, as now, cut himself adrift from his academical ties, and start forth to make his fortune independently by tuition, journalism, or the public service. Such extra-academical means of making use of an academical education were then comparatively unknown or unpromising. The avenues whereby a gentleman of liberal education could enter the salaried sphere of existence were then comparatively few, and still almost confined to the "three liberal professions." The really well-paid schoolmasterships were then very few; there was no Haileybury, and no Radley, and no Bradfield; there were no professorships at King's College, London, and no inspectorships of schools. The young Fellow who had taken orders had nothing to look to but a college living, so he waited on, perhaps for ten, perhaps for twenty, or even thirty years, until his youthful ardor had cooled down into a quiet, bookish sort of attachment, and his betrothed had come to look forward to her marriage rather with pride than with passion, as the event which would one day give her the privilege of humbly helping that learned man in his labors, or at least secure her the monopoly of nursing his declining years.

Such long engagements as this are now extremely rare; one scarcely ever hears of a couple being engaged twenty years, and the friends of a young *fiancee* are generally rather disgusted if she remains unmarried so many months. Any engagement which lasts over two years is now called a long engagement; and one which extends to five years is reckoned a melancholy and very middle class affair. Long engagements, in fact, even in the modern sense of the term, are confined almost entirely to the middle ranks of the community. They are nearly as much a middle-class institution as early dining or Dissent.

Lunar Heat.

Lord Rosse has been measuring, says *Once a Week*, the heat that comes to us from the moon. Using one of his great reflecting telescopes as a burning mirror, he has condensed the moon's rays upon one of the most delicate of heat gaugers—a thermo-pile. Without being able to determine by what fraction of a Farenheit's degree the lunar warmth increases phere, he has found as an approximation, that the radiation from the moon is about the temperature of the terrestrial atmosthe ninety-thousandth part of that from the Sun. He conceives that the variation of heat from our satellite follows the same law as that of its light, viz: that we have most warmth from the full moon, and least from the nearly new.

By comparison with the terrestrial source of heat, Lord Rosse estimates the actual temperature of the moon's surface at lunar mid-day to be about five hundred degrees Fahrenheit. This scorching results from the slow rotation of the moon, which makes its day equal to our month, and from the absence of any atmosphere to screen the lunar world. Years ago, Sir John Herschel, who has more than once proved himself a prophet by his sagacious inferences, remarked that "the surface of the full moon exposed to us must necessarily be very much heated, possibly to a degree much exceeding that of boiling water." Fontenelle, and his followers to the contrary notwithstanding, the moon can be no place for living beings, unless they are salamanders.

GROUND WAS BROKEN for the foundation of the Lincoln monument, at Springfield, Ill., on Thursday of last week. The Monument Association has at its command, contributed from various sources, funds amounting to $158,663. A contract has been entered into with Wm. D. Richardson for the erection of the monument, except the statuary—the foundation during the year 1869, and to finish the whole during 1870, for the sum of $136,550. Larkin G. Meade has contracted to deliver the sculpture required by his design for the sum of $70,000, made up as follows: $13,700 for the statue of Mr. Lincoln, $13,700 for each group supporting that statue, and $15,000 for the coat of arms. The Association has therefore incurred liabilities to the amount of $151,750, leaving a balance of $6,913.

GENERAL INTELLIGENCE.

THE Boston Jubilee organ was destroyed by the hurricane last week.

THE German language is being taught in the public schools of Wheeling.

MRS. SCOTT-SIDDONS is to play at the New York Sixth Avenue Theatre.

THE Ohio Baptist Convention will be held at Springfield instead of Columbus.

IT was proposed to dispose of the Boston Coliseum by lottery, on the principle of the gift enterprise.

ABOUT one-half the cotton crop in Georgia and Florida has been destroyed by the caterpillars.

THE Circleville (O.) *Union* says the brown corn men in that neighborhood will have a reasonably good harvest.

THE saloon keepers of St. Joseph, Mo., have petitioned the police to close up their bars on Sunday, and prosecute them if they open.

THE grape malady is in the region of Lancaster, Ohio, and promises to leave but an insignificant crop of those hitherto deemed standard sorts.

FIVE Indians confined in jail at Omaha were purposely given an opportunity to escape, this being considered the cheapest way of ridding the county of their presence.

MRS. SPARHAWK, aged seventy, residing at Walpole, N. H., was shot dead on the 4th by her grandson, aged eleven years, who said he did it "to git the old critter out of the way.

DAVID LELSOR, of Madison county, Ohio, the cattle king, is fattening two car loads of short horns for the Christmas trade, which will weigh, it is estimated, a ton and a quarter each.

THE notorious thief, Wm. Hall alias Poker Bill, who robbed Gov. Merriwether at Louisville a short time since, was arrested at St. Louis, while on the eve of starting for Chicago.

ON the 5th, at New Berlin, Ohio, a son of Gideon Cornelius, aged seven years, was shot dead by a companion aged twelve years. They were playing with a gun which they supposed to be unloaded.

IT is authoritatively stated that nothing further will appear from Mrs. Stowe in ths *Atlantic Monthly*, but that she will give the public an opportunity to read an explanatory and corroborative article through some other medium.

THE father and mother of General Rawlins are both living at Galena, Ill. He was one of nine children—eight sons and one daughter—all of them now living but two of the sons. General Rawlins left three children by his first wife.

IT is reported in Boston that Mrs. Stowe is so overcome by the unexpected reception of her article on Lord Byron that she is quite ill. Domestic afflictions and grief are assigned as the cause of her imprudence in publishing the article.

THE red-hot Democrats of Texas, will nominate for Governor Gen. J. J. Byrne, formerly a pressman in the New York *Herald* office, afterward Colonel of the New York 18th Cavalry, Brigadier General and United States Marshal for Eastern Texas.

HILLSBOROUGH, Ohio, had been without rain for three weeks. THE Cincinnati conference of the M. E. Church being in session there, the ministers, on the 25th inst., prayed fervently for rain, and that afternoon the windows of Heaven opened and it came in torrents.

A BITUMINOUS coal vein is supposed to have been discovered at Cowlesville, Wyoming county, 25 miles from Buffalo, four miles from the Erie road and five from the B. & W. R R. Its productiveness is not ascertained, but the coal men of Buffalo are greatly excited.

FRED. WINSLOW, son of Dr. C. F. Winslow, of Boston, has lately received the highest honors of the German university of Heidelberg, and is but eighteen and a half years old yet. The distinction has been bestowed on only one other American student for many years.

THERE is a project on foot for a telegraph ship to be stationed fifty-fiive miles off the English coast, between Sycilly and Ushant, connected by cable with Penzance, and furnishing intelligence to all vessels that desire it, from all parts of the world in telegraphic connection with England.

SAMUEL LINDER, of Madison county, Ohio, in the last fourteen years has shipped over 25,000 cattle, 65,000 sheep and about the same number of hogs, to the New York market, since 1865—more than any other shipper in Ohio. Linder & Johnston bought, clipped and sent forward 8,000 fat sheep last spring.

BRIGHAM YOUNG has returned a fraudulent income return of the rents, profits, &c., of the church of the Latter Day Saints, for 1868. Having been requested to make a proper return, he informed the assessor that the revenues of the church amounted to but $440. Not satisfied with this the assessor will assess the property himself.

ONE of the London papers says that although all pure spring creek ice sold in England goes under the name of Wenham Lake ice, importation of ice from the American continent has long since ceased. In hard winters much ice is now collected in England, and at least thirty thousand tons are imported from Norway to supplement the home supply.

A WELSH paper says that, at the last religious meeting in the district in which it circulates, the assembled clergymen discussed "gweddi gy naulleid faol," and that the subject for debate at their next meeting is "Yegrythrolded sefvdlled erefymewn gwald." We have no hesitation in pronouncing for the affirmative of this question. Why not?

A YOUNG MAN about eighteen years old succeeded in "seeing the elephant" at Bucyrus, Ohio, recently. He was teasing and abusing a young elephant in a menagerie, and the animal, suddenly straightening its trunk, dealt him a blow squarely between the eyes. He arose and departed a wiser young man, his sight of the animal having cost him an elegant pair of black eyes.

THE corn crop of Wisconsin, says a paper of that State, is a nonentity, it is a factotem, a humbug, a bankrupt. Everybody seems to have planted the small yellow kind, and as emblematic of its goneupness it is wearing the weeds of utter disconsolateness. It no more appears in silks and tassels. Joseph of old would make a poor stagger buying corn the coming harvest.

IN Portsmouth, N. H., is a young Irishman who seems not to be a favorite of fortune. He lost his wife a year or two ago by a railroad accident. His second wife, with her child, died in childbed a few days since, after a terrible surgical operation. Within a few hours a good horse belonging to him fell and was severely injured; and somebody stole from fifty to eighty dollars belonging to him and his late wife from a drawer in the house.

MR. SAMUEL STEVENS, of Belleville, Ontario, claims to have invented an entirely new process for refining petroleum. The oil runs from the still complete, and does not require any subsequent treatment by acid or other chemicals. This process is effected by superheated steam, and the direct action of fire on the bottom of the still is therefore not required. It is stated that about 60 per cent. of burning oil can be got off and the residuum is made into a splendid lubricating oil. It will not gum, and is free from any impurities, and is valuable as a tanner's oil.

FROM the table of revenue receipts for the fiscal year 1867-8, just published, it appears the largest amount of duties paid by any one class of articles is yielded by sugar and molasses, which are credited with $34,770,065. Next come woolens and woolen manufactures, yielding $11,458,755; coffee, $10,657,845; women's and children's dress goods and Italian cloths, $10,650,901; iron and steel, $10,524,024; tea, $9.414,664; cotton manufactures, $7,202,871; spirits and wines, $6,309,523; flax and manufactures thereof, $4,645,043; dress and piece goods, $4,526,706.

SOME of the North Carolina Ku-Klux, arrested recently, have turned State's evidence and exposed the whole Klan. A correspondent gives some of the principal rules, oaths and obligations. The first ceremony is to blindfold the candidate, he being first asked: "Do you believe in a white man's government?" He is then taken inside, caused to kneel, and, with the hands on the Bible, take the following oath: "I solemnly swear that I will never reveal anything that has transpired, or may transpire in the order that I am now about to join, even should I not identify myself therewith." Each officer administers a different oath, or exacts an obligation if the person is about to join the order, some of which are as follows: "I pledge myself if any of our number get in jail to bail them out if possible, if not, assist in taking him out." If one of our number comes to trial, I promise to get in the way of the Sheriff, to get summoned on the jury, and promise to acquit the prisoner." "I promise to assist a member if he gets in trouble, even to the risk of my life." "I promise to resist any attempt of an officer to arrest one of our number, with force of arms, if necessary. The sign of recognition is the right hand placed on the breast; the sign of distress is the hands clasped behind the head; the grip is a shake of the hand with the forefiner doubled in.

RUMORS are afloat of traces of incendiarism at Avondale. The jury of inquest commences its sitting on the 11th.

THE residence of Hardman Phillips, of Yeagertown, Mifflin county, was burned on the 2nd. House and furniture insured for $4,666.

WM. VAUGHN, aged thirty years, committed suicide in the Franklin Cemetery, Philadelphia, last week. He was a resident of that city.

A MAN put off a train at Milesburg, for refusing to pay his fare, attempted to avenge himself by firing at the cars, for which he was arrested.

THE Pennsylvania Railroad shops, at Patterson, are to be closed on the 1st proximo, the machinery and hands will be distributed at other points along the road.

LAST Friday, while the afternoon train for Youngstown was making up at Sharon, the Shenango bridge gave away and let the engine and tender into the river.

A CHILD of Franklin Speice, of West Beaver township, Snyder county, recently fell head first into a tub of hot water. The skin of its face and arms peeled off, but its life was saved.

EUGENE F. JOHNSTON, charged with the murder of Levi Ennis, in July last, was tried at Bellefonte, convicted of murder in the second degree and sentenced to the penitentiary for eight years.

IT is pretty well ascertained that the "meteor" which exploded and caused the destruction of a car on the Franklin branch of the Allegheny road, was of earthly manufacture and partook of the nature of a torpedo.

THE engineer of the Thomas Iron Company, at Wilksbarre, corrects the statement concerning the Pine Ridge colliery, spoken of as "that fiery pit which has swallowed up many victims," and says no fatal accident has ever occurred in those mines.

ONLY seven plans have been submitted in competition to the Board of Commissioners for the erection of the Public Buildings on Independence Square, Philadelphia. The committee will make their decision this month on these plans, paying a premium of $2,000 for the design having the most merit, $1,500 for the second best, $1,000 for the third and $500 for the fourth. All the buildings now on the Square are to be removed, except Independence Hall. The buildings are to be fire proof throughout.

AT Petroleum Center, on Friday of last week, the decomposing remains of Fannie C. Garrett, a young woman who had "disappeared" a few days previous, were discovered in an unoccupied room. She had been employed at one of the hotels, was discharged, and failing to find employment elsewhere engaged as waitress in a "free and easy," where she remained but a few days. The attention of the owner of the room in which she was found was attracted by a fœtid odor proceeding from it, and the door being broken open she was found suspended from a beam of the roof by a piece of clothes line.

THE Shenango and Allegheny Railroad has been completed from Greenville to Mercer and was opened a few days since, the event being celebrated at Mercer, by the suspension of business, the closing of public offices, and the people turning out *en masse* to witness the arrival of the first train from Greenville. An impromptu meeting was presided over by Judge Trunkey, and addressed by Prof. Williams, Wm. Reynolds, Alfred Huidekoper and Geo. Delamater, Esqs., of Meadville; S. Griffith, Esq., Hon. Wm. Stewart, and Rev. J. R. Findley, of Mercer, and Thos. H. Wells, Esq., of Youngstown.

DR. WHITTIER
CONTINUES TO TREAT ALL private diseases. Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instanees, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 3 P. M. Office, No. 9 WYLIE STREET, (near Court House,) Pittsburgh, Pa

MONDAY, Sept. 12, 1869.

CATTLE.

There was a very full supply of cattle on sale to-day, well on to 1,000 head, but the market, notwithstanding, did not turn out as bad as might have been expected. Good cattle sold fully up to last weeks prices, but commonish cattle, of which there was an over supply, were dull, as there were but few country buyers in attendance. The sales reported aggregated 951 head, and of these an unusually large number were from Green, Washington, Butler, and other adjoining counties. Ohio and Indiana were also represented, and there were several car loads from Chicago. There were some unusually fine cattle on sale, including 32 head sold by Haas & Krans, to some of our best butchers, at 8 cents; this is an outside price, but there has not probably been a better drove of cattle in market this year, and this is saying a good deal. Quotations may be fairly given at 3@4 for scalawags; 4½@5¼ for fair to prime stockers; 6@7 for good to medium butchers stock, and 6¾@7¾ for prime to extra do. Notwithstanding the offerings were unusually large, there were but few left over unsold, and as already noted, prime fat cattle sold up to last week's prices.

John Cullin had 16 head of prime Indiana steers; sold 8 of them at 7½.

Stakely & Bro. sold 3 head Butler Co. steers, at 5¼.

M. Flinner 17 head Butler county steers and heifers, at 3½@5¼.

Garwin & Bro. sold 37 head mixed Butler county stock.

J. L. Badger sold 9 head Butler county stock, at 4¼.

Peter Hartman 63 head Green county cows, heifers and steers, at $4,10@7,10.

J. Rothchilds sold 24 head of common Butler county stock, for John Young, at 3@4½.

Greenwald & Kahn 75 head, mostly all prime Ohio heifers and steers, 6@7,90.

Traurman & Lobman sold 62 Washington and Green counties steers, at 6@7; 80 head Green county steers, for Hook & Weise, at 4,90@6½.

S Lowenstein sold 19 head of West Virginia stock, at 5¼@6½.

L. Rothchilds 19 head steers from Chicago, at 6@6½; 23 on commission, at 4½@6¼, from Butler county.

L & J Shamberg 40 Chicago and Green county, 6@7½.

Kraus & Haas sold 32 extra steers from Green county, Ohio, averaging 1,400, at 8, and 32 additional, at 6½@7.

Wilson & Hart 32 head Washington county steers, at 5¼@5¾.

M. Verner 44 head Ohio cattle, at 5¾@6¾.

Jacob Needy 57 head Ohio stock, at 5@7¾.

S. Marks & Bro. sold 76 head from Ohio and Chicago, at 5¾@7¾.

Hazlewood & Blackstock 80 head mixed stock, at 5@7½.

Nicholas Carr sold 34 head Ohio mixed stock, at 6@8.

Hedges & Taylor sold 38 Indiana and Illinois stock, at 5½@6¾.

L. Keeler 18 head steers from Chicago, at 5@6½; and 11 from Washington county, at 5@6.

Holmes, Laferty & Co. sold 92 head mixed stock, at 5@6½.

SHEEP AND LAMBS.

There was also a full supply of sheep on sale to-day over 2,000 head, and the market was rather tame and sluggish, though compared with last week, prices have undergone no quotable change. Most of the sheep on sale to-day were in the hands of the regular dealers, and, as a consequence, the market was not as bad as it might otherwise have been. Prime fat sheep sold at $4,00@4,50 per head, while lambs ranged from $1,00@3,50 per head.

Jacob Emmell sold 140 head sheep, at $1,50@3 per head.

John Walters 130; sheep at $1,00@2,00; lambs at $1,50@2,50.

Adam Eckert sold 96; sheep at $2,00@$3,25; and $1,75@3,85 for lambs.

John Beeler 300; sheep at $2,00@4,00; and lambs at $1,00@3,00.

Stakely & Bro; 241; sheep at $1,25@3,00; and lambs at $1,00@3,00.

M. Flinner sold 50 at $2,25@2,50 for sheep, and lambs at $1,00.

C. H Moulton sold 1,25; sheep at $2,50@3,50; lambs at same.

Garwin & Bro. sold 116; sheep at $1,50@3,00; lambs at an average of $2,00.

J. R. Pringle 341 sheep and lambs; sold 75 at $1,50@3,50.

F. Kraus 91; sheep at $2,25@3,50; lambs at $2,25@3,25.

Chas. Haas 60; sheep at $1,75@3,00; and lambs at 75 cts to $5,00.

P. Bannon sold for Williamson 122; lambs at $2,87; and sheep at an average af $3,50.

Isaac Willimas 59 sheep—unsold.

Johnathan Davis sold 130 head sheep and lambs at $1,25@4,50.

J. F. Neely sold 200 sheep and lambs at $1,50@4,00.

HOGS.

The retail demand for hogs continues light, and the market is quiet and unchanged. Sales of fat hogs at 10½@11 cts., and stock hogs at 9¾@10½, but few of the latter kind offering.

RIVER NEWS.

The river continues to recede steadily at this point with scant seven feet in the channel by the Monongahela marks last evening. Weather clear and warm—mercury 79 in shade.

Business continues quite active at the levee, the offerings of freights for all points being quite liberal, and all the boats loading seem to be getting about as much as they can handle. The Glendale took out well on to 600 tons—and the Wild Duck and barges will leave to-day with close on to a 1,000 tons.

The R. C. Gray, Capt. Whittaker, is filling up steadily, and will be the next boat out for Cincinnati and Louisville.

The Glendale departed for St. Louis last evening with an excellent freight list and quite a number of passengers. Pilots—Marshall and Oakes.

The Bellevernon, will probably go on the dock for repairs.

The Messenger is still undergoing repairs, and consequently, is not yet ready for business.

The Wild Duck, Capt. Anawalt, will take her departure for St. Louis this evening and shippers should bear this in mind.

The Julia No. 2, arrived from Zanesville and will depart as usual to-day. The Kate Putnam from Cincinnati is due here to-day.

The New State arrived and departed for Wheeling.

The St. Marys is advertised to leave Cincinnati for this port to-day.

The Maggie Hays was to have left Cincinnati for Pittsburgh on Saturday.

The following boats were in port last evening: Bellevernon, Messenger, Julia A. Rudolph, Wild Duck, Ironsides and Julia No. 2.

Passengers and shippers should bear in mind that the new steamer Julia A. Rudolph, Capt. H. G. McComas, W. F. Rudolph, clerk, is filling up raidly for New Orleans, and will take her departure to-morrow. There is no doubt about the Julia going clear through—no reshipping.

—Bruce Hunter freight clerk of the ill-fated Cumberland, is recovering.

—The Sallie, in command of Captain Tom Rogers, is enroute from St. Louis to Pittsburgh.

—The Gallatin from this port to Memphis, at last accounts, was hard aground at Walker's bar, nearly high and dry.

—The little steamer Fawn was sold at Shawneetown a day or two ago, and left for the upper Wabash, where she will be run hereafter.

—The St. Louis' *Democrat*, of Saturday, says: Capt. Wm. C. Gray, a close relative of Dick, the wealthy Pittsburgher, leaves for the head of the Ohio to-day by rail. We hope to learn from him soon that his health has been reinstated.

MISCELLANEOUS.

SECURITY AND COMFORT for the traveling community.

J. B. HARRIS
Safety Fire Jacket, Car Heater and
MODERATOR.

For Smoke and Hot Air Flues, dispensing with the use of stoves and fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached. Having obtained of the United States Letters Patent for a Safety Jacket, which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended.

It is a sure protection from accidents by fire, originating from defective flues or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto, I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c. Wherever pipes as conductors are made dangerous by being overheated and security desired, I will send on application right to manufacture or use the above invention. Also Territorial rights to such as may wish to engage in selling privileges either by State or county.

PETROLEUM at Antwerp, 55¾f.

U. S. BONDS at Frankfort, 87⅞.

GOLD closed yesterday in New York at 135⅞@136.

A CITY JOURNAL avails itself of the occasion of the Presidential visit, to ventilate its ill will towards one of the Senators from Pennsylvania. Since the President is not likely to see the journal alluded to, its assault upon his friend will be as unprofitable as its taste was questionable.

CHIEF JUSTICE CHASE very pointedly says, in a recent letter ostensibly declining to take any active interest in politics, that he is "not at all satisfied that, if in a higher place, he could do any better than those now exercising executive functions do." This tribute to President GRANT, and from that source, is equally unexpected and complimentary.

THE Nashville *Press* devotes daily leaders to the political situation in Tennessee. Insisting that the recent election resulted in a decisive acceptance of the situation, with the addition of an unrestricted franchise, the *Press* protests against "the strange cry from various portions of the State," for undoing all the Republican work of the past three years. We are afraid that its remonstrances are all too late!

THE RUMOR, of the Emperor Napoleon's intention to abdicate the throne in favor of his son, has about it an air of strong probability. The dynastic succession would be rendered vastly more secure, with Louis Napoleon living, than with the present Emperor dead. The one, although an invalid and in retirement, would be worth a score of the other. This succession is all that remains for his ambition to attain, and, Emperor or subject, he dedicates himself to that end.

MR. PENDLETON, the Democratic candidate for Governor of Ohio, relieved kimself of a very ill-natured speech to a select party of friends last week. It was quite too much to expect a cheerful oration, from a gentleman who realizes that he is the Hobson's choice of his party, the *pis aller* of a demoralized faction, which tried ineffectually to escape from his nomination, even first tendering the unsolicited honor to a distinguished soldier who has denounced Mr. Pendleton as a traitor.

Naturally, the latter feels the annoyances of his position, and scolds everybody and everything. Beyond its bilious fault-finding, his speech has but two points in it worthy of note: the first, that the XVth Article is objectionable, not because of its extension of political rights to the colored people, but because it operates as an invasion of the Democratic idea of State sovereignty; the second that he takes decided ground in favor of inflating the currency, in effect to flood the country again with the "rag-money" which Democratic policy has so long and faithfully denounced.

When the letter of Gen. ROSECRANS, declining the first choice of the Ohio Democracy, denounced, as traitors to the Republic, those who opposed the war for the Union, he could not have been unmindful of the fact that Mr. PENDLETON opposed that war in '61, and reiterated the same unpatriotic sentiment in '63 and '64.

THE PRESIDENT.

General GRANT, with his family and a portion of his staff, will visit Pittsburgh to-day. Arriving at the Union Depot, from Altoona, where the party rested last night, at precisely one o'clock this afternoon, he will be received as the guest of the cities, and remain here until to-morrow morning, when the party proceeds to Washington county.

The President will be received and honored as the guest of the people whose Chief magistrate he is. As such, no political differences will mar the harmony of the occasion. To this end, the Committees are judiciously constituted, and we are quite sure that our citizens, of whatever political opinion, will heartily concur in performing the hospitable duties of the day, with a becoming respect for the Executive of the whole nation.

The Committees are requested to meet at the Mayor's office at ten o'clock this morning, to perfect the detailed arrangements for the day. Each member is urgently requested to be punctually present.

In the evening, probably about 7:30, the President will receive his fellow citizens at the City Hall. The scene will be worth witnessing and to be remembered.

The President will have there an excellent opportunity to see the people who make up "the State of Allegheny."

THE AVONDALE RELIEF FUND.

Contributions from this charitable community, entrusted to us for remittance to the local Committee, will be acknowledged in our local columns. We have evidence already that those widows and orphans do not plead to our people in vain. They solicit still!

THE BEGINNING OF THE END.

The strategy of the Phiadelphia roughs which secured the nomination of Mr, Asa Packer for Governor, over his distinguished and capable competitor from Western Pennsylvania, was also successful in accomplishing the choice of a city and county ticket for Philadelphia, so scandalously and irredeemably bad in every respect, that the decent elements of the party have absolutely revolted from its support. The better class of Democrats in that city were content with the situation, so long as the pending contest between the respectable men and the blackguards of their party was confined to general State politics. The iron entered their souls, when the 'Dead Rabbit' mob, headed by the fellow, McMullin, who menaces their city with riot and wholesale murder on the election day, took possession of the local conventions, and forced the selection of precisely such a disreputable ticket as best suited themselves. Even the Democratic stomach revolted from the dose; protest upon protest has been uselessly multiplied; the McMullin gang would not relax its grasp upon the Democratic throat until, at last, forbearance is no longer a virtue, and their model set of candidates have the option of walking out or being kicked out by the indignant decency of the party. The best man on the ticket withdraws, and advises the other candidates to follow his example, a recommendation which they will find it prudent to follow. The same rascally influences are on hand, to insist upon nominating a ticket still more objectionable, if the old one be abandoned.

This is a beautiful state of affairs for the Democratic party in Philadelphia, only four weeks before the election. It shows such an utter demoralization among them, that, evidently, the leaders of the party no longer retain the faintest shadow of a hope for electing their State ticket. Philadelphia lost as it already is, and the anthracite counties lost as they surely will be, colonization played out, bogus naturalizations and Snowdenizing generally gone up in a balloon, not even McMullin's promised murders will save them and their tax-dodging millionaire candidate, from the worst defeat experienced by them or their friends since the war of the rebellion. This business in Philadelphia now is the beginning of a very bad end for the Pennsylvania Democracy.

—Since the above was placed in type, we learn that the candidates on the old ticket, the regular choice of the party in its Conventions, have all withdrawn from the canvass. This is done to avert the dangers of the situation for the party. A new ticket has been selected. Whether it be of better or worse material, makes but little difference; it is sure to be distasteful either to the thieves or to the honest element of the party, between whom the feud cannot be healed.

THE Memphis *Post*, thoroughly understanding the politics of Mississippi, has an appreciative paragraph upon the recent "National Republican" Convention which nominated Judge Dent for Governor of that State:

> The rebels of Mississippi meeting at Jackson and dubbing themselves "The National Union Republican party!" Not a score of men amongst them all but who have and are still, though covertly, waging a war to the knife and the knife to the hilt upon eveay Republican principle and upon every man in Mississippi who dare avow such principles! It was emphatically a Ku-Klux convention of masked men. These rebels chanting a Republican platform and Satan singing psalms were a fit accompaniment.

HUMBOLDT.

Countless victories of peace have exalted the Christian world since an hundred years ago, and it has honored each conqueror with an immortal fame. To-day, Civilization, all over the earth, crowns, with grateful tributes, the memory of one among the most distinguished of all the illustrious catalogue. HUMBOLDT, dead in the material presence, lives, on this centennary anniversary of his birth, in the undying annals of Science, which shall perpetuate his name until all knowledge shall become extinct.

FREIDERICH HEINRICH ALEXANDER von HUMBOLDT was born at Berlin, Sept. 14, 1769. At the age of ninety years, he died in the same city, May 6, 1859. Educated with special care in the natural sciences, in mathematics, philosophy and politics, his first essay in authorship was upon the Geology of the Rhine, in 1796. His tastes led him to engage in practical mining from 1792 to 1797. Then, he entered upon a long career of travel and scientific observation, in Europe and upon the American Continent, the results of which he has given to the world of science in forms which will be imperishable. Geography, geology, chemistry, meteorology, climatology, botany, anatomy and zoology—all these sciences have been wonderfully enriched by contributions from the wide experience and discriminating observations of this remarkable man. Drawn later in life into the more pressing duties of European statesmanship, in the great international convulsions which attended the decline and fall of the first French Empire, the diplomacy of the Continent recognized the splendid qualifications which science had not altogether absorbed. His last prominent part in politics was as an Embassador, to bear to Paris the Prussian recognition of King Louis Phillippe. The remaining years of his life were devoted to the revision of his already numerous literary works, and to the preparation of his "Views of Nature," and the world-renowned "Cosmos." Dying, after twe weeks of illness, his obsequies were celebrated by royalty itself.

It is not Prussia, not Germany, not Europe, which alone claims this immortal philosopher. An enlightened world possesses and reveres his memory. America equally vindicates her share, in the general title to a name which has contributed so largely to the illustration of natural science on this portion of the globe. Wherever knowledge has votaries, in every city and hamlet between the Arctic and Antarctic Oceans, the memory of Humboldt is here to-day gratefully but mournfully cherished. The citizens of Allegheny county are not forgetful of their part, but, themselves by birthright of all nationalities on the earth, come to-day, in a common brotherhood, to invest the living remembrance of the greatest of cosmopolitan philosophers with the visible insignia of American citizenship.

PENDLETON AND EQUAL RIGHTS.

Occasionally, very sound ideas are expressed in the *Congressional Globe's* report of Democratic speeches, if you look carefully for them. To illustrate this, we annex an extract from one of the reported speeches of an Ohio representative in 1863, Hon. G. H. Pendleton. His friends insist that this gentleman always stands by his record. There may, therefore, be some basis for current rumors that he looks now with a kindly eye upon the proposition to throw the ballot open to all, irrespective of race or color. Mr. Asa Packer takes so much pleasure in concurring with his Ohio friend in every other political question, that we must regret, for the sake of Democratic harmony, his disapproval of the doctrines of this speech. It is plain that our coal-mining, tax-dodging monoplist has not yet packed his carpet-bag for the new Democratic departure.

When the bill was before Congress for enlisting negroes into the army of the United States, upon the 31st of January, 1763, in a speech reported in the *Congressional Globe*, Mr. Pendleton spoke as follows:

> "If these black troops are to stand on an equality with the white troops on the battlefield and at every point of danger, and in all the other relations of a soldier's life, and at every other moment they are to be marked by a degrading and ignominious isolation, how long will you be able to maintain discipline and order in your army—I do not say contentment and zeal and alacrity—among these troops?
>
> "And what do you propose to do with these black soldiers after they shall have returned from the battlefield? Gentlemen have told us that these enlistments are found necessary, in order that the army of the United States may be made sufficiently strong to accomplish the work it has to do. They tell us we are in the very crisis of the war. They tell that now is the time to put forth our whole power, or else the result of the struggle is in doubt. They tell us that the white race alone, so far as its strength has yet been developed, is not entirely competent to render to the Union and the Constitution an assured victory. And they tell us that these colored men are ready with their strong arms and their brave hearts to maintain the supremacy of the Constitution, and to defend the integrity of the Union which in our hands to-day is imperiled.
>
> "What is that Constitution? It provides that every child of the Republic, every citizen of the land, is before the law the equal of every other. It provides for all of them trial by jury, free speech, free press, entire protection for life and liberty and property.
>
> *It goes further. It secures to every citizen the right to hold office, the right to aspire to every office or agency by which the Government is carried on. Every man called upon to do military duty, every man required to take up arms in its defense, is by its provisions entitled to vote, and a competent aspirant for every office in the Government.*
>
> "You now say to these black men, 'come to the defense of this Constitution. Come aid us to maintain its supremacy. Come aid us to uphold a Government which is thus beneficent to all its children.' Suppose your utmost hopes are realized; suppose they come, and that by their aid you are successful. They will come back with your victorious hosts, following the banner of the Republic, battle-worn and maimed and scarred. What will you do with them? Will you consign them again to political inferiority, to social isolation? Will you again deny to them those privileges which are guaranteed to them by the Constitution which they have helped you to maintain?"

MINOR TOPICS.

THE WORLD may have degenerated and the times become common-place, yet the past week has produced a pair of heroes before whom the Knights of the Round Table would have bowed, acknowledging them as their peers at least. When the [illegible]phitic vapors were still rolling up [illegible]ath and destruction from the mouth of the Avondale shaft, and hundreds of women and children weeping and waiting for the news of their widowhood and orphanage, Charles Vartue, of the Grand Tunnel Colliery, a noble-looking young man, full of life and vigor and hope, volunteered to be the first to go down to rescue his comrades. Perfectly conscious of the danger, he led the way, and so performed a deed deserving of immortality. A few days later, Albert G. Decker, keeper of the draw-bridge crossing the Passaic river, was about to close the draw for a coming train, when his son fell from the bridge into the river. On one side he saw a train coming to certain destruction if the draw were not closed, on the other his boy drowning in the river! With a more than human steadiness of purpose, this modern Brutus sacrificed feeling to duty, and secured the draw before he sprang, too late, to the rescue of his son. If any other age can produce two nobler men, we have yet to learn their names.

THE DEMON OF CHANGE, which was invoked by Mr. Andrew Johnson, requires time before he will be laid again. Change and re-change in office—change and re-change in naval nomenclature, change, with a prospect of re-change in the postage stamps. Concerning the lately adopted designs for these latter necessities of life, we have heard not one word of objection; everybody with whom we have discussed the subject, seems to think the new designs are a marked improvement upon the old distorted heads. Most of our exchanges which have expressed any opinion, have also professed to be pleased with the change. Yet, in spite of what we believe to be a general feeling, we see it announced that the Post Office Department is about to change the designs on the stamps because of the general dissatisfaction expressed concerning them. Appreciating the willingness of the department to bow to the wishes of the people, we think that the cause of dissatisfaction has been misunderstood. The designs are very satisfactory, but the *paste is not*. Most of the postage stamps have not enough adhesiveness to assure that they will remain upon the letters. Let the department authoritatively repeat to the postage stamps the historical remark telegraphed to Mr. Stanton by Mr. Sumner, and we believe the only change that is desired will be thus effected. They will then stick!

"WHAT a change there is, from the days when "little Tommy Tucker sang for his supper," to the present time when M'lle Nillsen recieves $600,000 a year, and Carlotta Patti has saved six millions of francs. We wonder if the most ardent musical enthusiasts are not struck with the idea that these famous human skylarks are a little over-paid! It only lasts for a few years, to be sure, but even when the novelty has worn off, and the *furore* has subsided, a popular singer still receives about five times as much remuneration as the most popular, best paid, minister of the gospel, or the most eminent statesman or official of the United States. Which is the most important and worth the most pay—to sing the ballads or to make and enforce the laws? Of course there can be but one answer to this question, but judging by appearances it is very inconsistent with the existing state of things.

INDIA is emphatically a land of wonders, a country where Nature has lavished her grandest, her most valuable, her most beautiful and her most terrible gifts. A land from which comes the Cashmere shawl, pepper, rhinosceroses, camels, indigo, opium, silk, elephants, lions, diamonds, cocoa nuts, tigers and other similar products, where the mountains are the highest, the forests most dense and the insurrections the most bloody. To all of these things another product has now been added. Heretofore the luxurious princes and merchants have been obliged to smoke the oriental hookah or chibouque or else to use pipes made and handled by the unclean fingers of infidels. Now, however, meerschaum, beautiful foam of the sea, such as has heretofore been found in perfection only within the limits of Asia Minor, has been discovered in Hindostan, and it but remains for the Hindoos to take advantage of another of the superlative gifts of Nature to their wonderful country.

IT IS stated by Hayes, the Arctic explorer, that in the Arctic regions mosquitoes are numerous and remarkably vicious. Pleasure seekers who swarm to Lake Superior find that the mosquitoes swarm there too and are even more industrious than the far-famed insects of New Jersey. At first this seems anomalous, and is certain to surprise the neophyte, but upon reflection it will appear that in those regions the summer is short, but genial and warm, and these carniverous insects, like our friends the Copperheads, endeavor to do all the harm they can where the Fates permit them for a short time occasionally to obtain positions of power.

IT IS some time since we have had a real President of the United States, elected by the people, as a welcome guest of our city. Mr. Johnson was here, but he was not the President of the people's choice, nor did his visit to the city, judging by our recollections, give unalloyed pleasure to either the guest or his entertainers. Mr. Lincoln was here before he was inaugurated in 1861. To day, President Grant will arrive, and will be, unless we are misinformed, the first duly elected and inaugurated Chief Executive officer of the nation who ever honored Pittsburgh with his presence. Such an event is worthy of special note in the History of the Iron City.

ARCTIC EXPEDITIONS may be relied upon to depart about twice in every three years; money is raised, vessels equipped, and generally the expedition is a failure. Sometimes they succeed, however, in getting the vessel wrecked, half the crew killed and the rest disabled, and prove, perhaps, that there is a north-west passage, which no navigator can use, or an open air Polar Sea, which no sail can reach. These are the startling successes of Arctic expeditions, and like other startling successes, exceedingly rare. Are they sufficient to satisfy people who are not enthusiasts on the subject that such expeditions pay?

STATE POLITICS.

JUDGE PACKER spent the war-summers among the rebel sympathizers in Europe—Geary among the rebels in the South.

SINCE Mr. Packer bolted a Democratic nomination to support a Know Nothing, there are a good many Democrats who don't know him.

A NEW Democratic paper has been established at Ridgway, Elk county, in the interest of a faction of the party in that county known as the Ridgway ring.

THE Mauch Chunk *Gazette* "has it on the best authority that Judge Packer remarked the other day that he believed his chances for election poor." Packer's opinion on Packer's chances ought to carry weight.

GEN. D. B. MCCREARY, of Erie, late Adjutant General of the State, and C. O. Bowman, Esq., of Corry, have been nominated for the Assembly by the Republicans of Erie county. This will give that county an able representation in the Legislature.

THE Lehigh *Register* says: When Dr. Cattell, the energetic President at Lafayette College at Easton, sought assistance from the men of wealth of this valley to save that venerable institution from ruin, he appealed to Asa Packer, but got from him no assistance. He next applied to Mr. Ario Pardee, of Hazleton, whose generosity immediately responded by a handsome endowment. The personal pride of Asa Packer was aroused upon this, and then he endowed Lehigh University.

IT IS confidently predicted in Carbon county that Mr. Packer will run behind his ticket. He is decidedly unpopular with the workingmen. He has never, with all his wealth, done aught to alleviate the sufferings of the poor. Where he is best known, people laugh at the idea of his being charitable. His corruption fund, in this canvass, is to be used in buying up men of supposed influence with workingmen. The bone and sinew should be on the look-out and distrust all who suddenly become convinced that Packer is a great friend to the cause of labor.

PERSONAL.

GEN. SHERIDAN is not engaged.

STANTON and family are in Boston.

JOHN TAYLOR, JR., was committed to a hospital in Washington recently.

T. C. DURANT is putting up a monument in Greenwood worth $51,000.

"LOVER'S NEST" is the name given to one of the parlors of a Niagara hotel.

CHIEF JUSTICE CHASE has been visiting ex Senator Foster, of Connecticut.

R. M. T. HUNTER has discovered that he has retired from public life forever.

GEN. W. S. HILLYER proposes writing the life of the late Secretary of War.

W. D. GALLAGHER, the poet, of Louisville, Ky., has a clerk's desk in the Revenue Bureau.

BONNER purchased the use of the New York park fence for one day for $500, as an advertising board.

A CHICAGO paper says the Springfield *Republican* has hired a man to be facetious, who fails to earn his wages.

THE recent proprietor of the Galt House, Louisville, was a Union man, and the fact is mentioned in connection with his retiracy.

PRINCE ALFRED is very severely censured by many journals for his scandalous conduct at Tihiti, Society Islands. The boy only danced with barefooted yellow girls, wore the Queen's "pupepu" and crown, and afterward entertained her and her handmaidens on board the Galatea, and drank and ate quite heartily in honor of his guests.

MRS. WILLARD is reported as saying at the Chicago Woman's Rights Convention, that "she would like to appeal to the Legislature to make women independent in the maternal sphere. Now she depended entirely upon the husband. A fundamental revolution was wanted, and the mothers must be independent in their labors."

MR. W. I. TRAFTON, of Manchester, N. H., who has already made one minature steam-engine of great delicacy and beauty, is about to construct another. He is to make every part of the engine, with the boiler, from a single silver half-dollar. When done it will be placed under a glass case three-quarters of an inch in diameter and an inch and an eighth in height. The boiler will hold about eight drops of water, but one half that quantity will run it several minutes. It will have all the parts of an engine, and the boiler will have two minute gauges. Some of the smaller parts can only be made by the aid of a powerful magnifying glass.

GENERAL INTELLIGENCE.

An exchange declares "the woman is evidently the coming man."

THE Massachusetts labor party will nominate candidates on the 28th.

HUMBOLDT was an honorary member of the Massachusetts Historical Society.

Near Port Jarvis, on the Erie Railroad, on the evening of 9th, a locomotive exploded, killing the engineer, fireman and breakman.

NELLIE MARSHALL, a seamstress, from Massachusetts, now of St. Louis, where she has resided since 1867, has brought suit for slander against Joseph and Susan Mulhall, asking $25,000 damages.

JOE JEFFERSON has about forty workmen engaged on the grounds of his villa, twenty-five miles out of New York. As the great actor is not troubled with rehearsals, he goes out to his country home every day. He receives $500 a night and half the receipts of the matinees.

IN MILWAUKEE, Wis., the widow of a Capt. Crozier, of the Union army, attempted self destruction, having been impelled to the act by the representations of a fortune teller, who aggravated her previous mental prostration, from anxiety for the future welfare of her children, by advising her that she was surrounded by enemies and that a horrible death awaited her. This information, obtained upon the payment of fifteen dollars, so preyed upon her mind that a few days since she committed hari-kari with a pair of scissors, inflicting three frightful gashes in her abdomen.

LOUISIANA is being colonized rapidly. The Iberia *Times*, of a late date, says: "The Messrs. Van Slyke, who visited us last spring, and purchased land on the Vermillion, below Abbeville, will soon leave Indiana on a steamer purchased for the purpose, and bring with them a large number of families, who will be landed either here or on the banks of the Vermillion. They will bring along a house for each family, already constructed, which can be put together with little trouble; also a full complement of agricultural implements and stock of provisions to last them until they make their own. The steamer will afterwards be used to navigate the bayou and carry to market their surplus products."

CALIFORNIA CLAIMS to have, in the Buena Vista estate, near Sonoma, the largest vineyard in the world. Some of the most noted vineyards in Europe do not exceed twenty or thirty, or sixty or seventy acres. The Buena Vista has 800 acres suitable to the vine, and 450 acres actually covered now. There are on the estate some vines planted thirty years ago, but the bulk of them were set out from 1854 to 1858, and additions have been made every year since. This year the grape crop is light. The vintage season will begin in mid October and continue nearly to the end of November, during which time this estate will employ about 100 men; Chinamen, of course. California champagne is the principal manufacture of this vineyard, and the inventory of last November showed a stock of 126,000 gallons of sparkling wines, with 40,000 bottles of champagne, on hand at that time.

THOU BRINGEST ME LIFE—LUNG-WORT.

One of the truest and most suggestive ideas can be obtained from the caption at the head of this article; for of all diseases which impair human health and shorten human life, none are more prevalent than those which affect the lungs and pulmonary tissues. Whether we regard lung diseases in the light of a merely slight cough, which is but the fore-runner of a more serious malady, or as a deep lesion corroding and dissolving the pulmonary structure, it is always pregnant with evil and foreboding of disaster. In no class of maladies should the physician or the friends and family of the patient be more seriously forewarned than in those of the lungs, for it is in them that early and effielent treatment is most desirable, and it is then that danger can be warded off and a cure effected. In DR. KEYSER'S LUNG CURE you have a medicine of the greatest value in all these conditions. An alterative, a tonic, a nutrient and resolvent, succoring nature and sustaining the recuperative powers of the system. Its beautiful workings, in harmony with the regular functions, can be readily observed by the use of one or two bottles: it will soon break up the chain of morbid sympathies that disturb the harmonious workings of the animal economy. The harrassing cough, the painful respiration, the sputum streaked with blood, will soon give place to the normal and proper workings of health and vigor.

An aggregated experience of over thirty years has enabled Dr. Keyser, in the compounding of his LUNG CURE, to give new hope to the consumptive invalid and at the same time speedy relief in those now prevalent, catarrhal and throat affections, so distressing in their effects and so almost certainly fatal in their tendencies, unless cured by some appropriate remedy. DR. KEYSER'S LUNG CURE is so thorough and efficient, that any one who has ever used it, will never be without it in the house. It will often cure when everything else fails, and in simple cases will cure oftentimes in a few days.

The attention of patients, as well as medical men, is respectfully invited to this new and valuable addition to the pharmacy of the country.

DR. KEYSER may be consulted every day until 1 o'clock P. M. at his Great Medicine Store, 167 Liberty street, and from 4 to 6 and 7 to 9 at night.

THE FEVER AND AGUE SEASON.

When the leaves begin to change, remittent and intermittent fevers make their appearance. From the surface of the earth, bathed nightly in heavy dews, from marshes and swamps surcharged with moisture, from the dying foliage of the woods, from festering pools and sluggish streams, the sun of September evolves clouds of miasmatic vapor perilous to health and life. The body, deprived by the burning temperature of July and August of much of its vigor and elasticity, is not in a proper plight to resist malaria, and hence all diseases that are produced by a depraved condition of the atmosphere are particularly prevalent in the Fall.

There is no reason why the health of thousands of people should be thus sacrificed. A preparatory course of HOSTETTER'S STOMACH BITTER'S is a certain protection against the epidemics and endemics which Autumn brings in its train. Let all dwellers in unhealthy localities, liable to such visitations, give heed to the warning and advice conveyed in this advertisement, and they may bid defiance to the foul exhalations which are now rising, night and day, from the soil around them. No farmhouse in the land should be without this invaluable exhilerant and invigorant at any period of the year, but especially in the Fall. It is not safe to go forth into the chill, misty atmosphere of a September morning or evening with the stomach unfortified by a tonic, and of all the tonics which medical chemistry has yet given to the world, HOSTETTER'S BITTERS are admitted to be the purest, the most wholesome and the most beneficial.

Let all who desire to escape the bilious attacks, bowel complaints and malarious fevers, take the BITTERS at least twice a day throughout the present season. It is as wholesome as it is infallible. Look to the trade-mark, "HOSTETTER'S STOMACH BITTERS," engraved on the label and embossed on the bottle, and their revenue stamp covering the cork, as counterfeits and imitations abound.

APPLE PARERS.—I have a full assortment of Apple Paring, Coring and Slicing Machines, which I invite all to call and see them tried. The PARING, CORING AND SLICING MACHINES, takes only three turns o the crank to pare, core, and slice an ordinary sized apple. It will pare without slicing or coring required.

Dried Apples sell much higher when sliced with this machine than when quartered by the old process.

Also, a full assortment of

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, September 13, 1869.

The chief feature of Wall street was the meeting of the Governing Committee of the Stock Exchange to take action on the re-admission of Erie to the call of the Board. After much discussion the Committee finally decided to readmit the stock, the registry being in accordance with the rules of the Stock Exchange and registered certificates only are to be good delivery.

Jay Gould sent in a letter giving full particulars of the Company's bonded debt. The stock was actively dealt in at the National Exchange, and rose to 39½. It will be put on the regular Board call to-morrow morning.

Money market easier at 7 per cent currency for general rate on call, but in the afternoon free offers at 5@6 per cent. Sterling dull at 8¼@8⅜. Gold firm; opened at 135¼, closed at 135¼@135⅞. Carrying rates 1-32 until tomorrow, and 3@7½ per annum. Clearances $85,000,000.

Stocks heavy till noon but were subsequently strong at ¼@½ per per cent. higher until three o'clock, the features being Vanderbilt stocks, Michigan Southern, North Western and Rock Island. Owing to the oversold condition of the North Western and Lake Shore stocks both are scarce for borrowing, and the apprehensions of a twist in them induced an advance; market was subsequently weak, particularly on New York Central, but finally closed firm though unsettled, Erie exhibiting great strength.

.RM, GARDEN AND HOUSEHOLD.

A WORD TO FARMERS ABOUT SELLING EIR PRODUCE.—Farmers are often .med for not selling their produce as on as it is ready for market. And it ıst be confessed that those who do so, ing one year with another, do quite as ll, all things considered, as these who ld on in hopes of getting higher ices. They obtain their money soon er harvest, and are enabled to use it advantage. Dealers in grain can ob money much more easily than farm-, and consequently hold their grain-ıger.

While, therefore, we think farmers of- do better by selling early, there is ll room for the excercise of judgment. e reason why it is usually best to sell ly is, that most farmers are disposed hold on to their grain as long as possible, l when the time comes that they must ll, there are more sellers than buyers, d the price declines.

It is a curious fact that people gener-y are more inclined to sell when prices low than when they are high. When ool was eighty cents a pound it was re difficult to induce farmers to sell n when it was forty cents per pound. st fall, with red wheat at $2,25 in the erior of Michigan, farmers hesitated ıger in making up their minds to let ir crops go than they did last summer ıen they were offered $1,25 for the ne wheat. It is a good rule to sell ıen you can get a price that will afford good living profit. Farmers, at the esent time, would have been richer by llions of dollars than they now are had y adopted this rule last autumn. We ow of a great many who sold wheat s summer for one dollar a bushel less n they refused for it last fall. The ole nation suffered greatly by this in-position to sell when a good price uld be obtained. We might have ipped all our surplus wheat to England a fair price, but by holding on we lost opportunity, and finally sold at a price low the cost of production. We should e the lesson to heart.

On the other hand, when prices are v, we should not be in a hurry to sell. und wheat is an article that will keep, d it is an artiele that is always required, d it is absolutely certain that it cannot ng remain at a price much below the tual cost of production. We cannot ld out hopes to such farmers as only ow ten or twelve bushels of wheat per re, that they will obtain prices sufficient compensate them for their labor. The untry must be in a very unsatisfactory ndition when such is the case; but we firmly believe that there is no reason doubt that a farmer who raises good ops is safe in calculating that sooner or er he will be able to obtain such a price r his wheat as will enable him to make air profit.

There is one fact in this connection that ould not be overlooked. In a cool, wet, e season in England, the wheat crop is ways below the average. And they ve had sueh a season the present year. n the other hand, it is very doubt-l if the wheat crop of the United States as large as was anticipated. We feel lerably certain, therefore, that before other harvest, wheat will bring a price fficiently high to afford the wheat ower a good living profit. He should satisfied with this. He should be in hurry to take less.

The question arises: What price should e obtain for wheat, to afford us a fair ofit? At the present price of imple-ents, machines, and other necessary ar-cles, not forgetting labor and taxes, we all not obtain extravagant profits if we ll good, sound red or amber winter heat—say in Michigan—for $1.50 per ıshel. A farmer who raises anything s than twenty bushels per acre will not t very rich, even if he obtains, in our esent currency, $1.75 for red wheat, d $2.00 for choice white wheat. When e can get these figures in ordinary sea-ns, it is not safe to hold on too long; ıt when, immediately after harvest, the ice is much below these figures, those ho can afford to hold their wheat run ry little risk of loss in doing so.—*merican Agriculturist*

TOO MUCH LAND.

We know a farmer who, ten years ago, vned 150 acres, and was doing well; now owns five hundred, and is worse than before. And why? Because is large farm is a great bill of expense him; he cannot afford to keep it up in od condition, and it hangs a millstone care about his neck. His wife and ildren, both sons and daughters, are liged to work hard to keep the great achine a running. We presume his ys declare they will leave home as soon they are old enough; and the girls say ey will die before they will marry far-ers. Neither sons nor daughters are lucated as they deserve to be; they can-ot be spared for this from work on the g farm.

Now we declare that such a farm is a ırse to its possessor and his family, and injury to the whole agricultural inter-t. If that man wants to save himself ıd household, he should sell at least one-alf of his land, improve the remainder make it productive, release his chil-ren from bondage, and try to make his me a comfort. He will live longer, lay p as good property, and will train up a ore intelligent and a happier family.—*merican Agriculturist.*

WHY PORK SHRINKS IN THE POT.

An "Old Farmer" gives in *The Home-ead* the various notions on this question, d closes with his own views on the sub-ct, which we condense below for our eaders:

Store hogs kept low in flesh in summer nd autumn, and then fully fed when ıut up for fattening, will gain fast, ap-ear to be doing well, and look well hen dressed, but will weigh light, and oiling will prove the flesh to be puffy, the ttle cells, of which the meat seems to be omposed, are filled with gelatinous atter, which has not had time to become ard and firm—it is hardly soluble in oiling water; hence pork shrinks in the ot. The same kind of pork results from eding hogs on mostly animal food, as at aughter houses, and from irregular feed-g, or from killing sows when in heat.

To produce pork that will not shrink the pot, the writer says that he first as a good breed; they are never allowed fall off in good condition from the art they get with their mother's milk, nd never know stint or stunt while alive. arly in autumn he takes them up in igh order, and begins to fatten them, ıcreasing their rations of grain till they re fat and ready to kill. Then he feeds em one week more, and makes due eparations for butchering, which is done early in the day by good hands. When thoroughly cooled cuts up and salts down (not allowing his pork to freeze), using plenty of the best salt, and filling up the barrels with brine, and not with water as some do. This method secures pork, white firm, compact, and almost as solid as marble, which, when well cooked, will be tender, juicy, melting and delicious, never shrinking in the pot.

THE employment of dry, pulverized earth as a deodorizer for poultry-houses, appears, says the London *Field*, to be worthy of more attention than it has hitherto received. The fact that four hundred to five hundred fowls can by this aid be kept in one building for months together, with less smell than is to be found in an ordinary fowl-house capable of accommodating a dozen chickens, is very conclusive as to its efficacy. In the building of the National Company, where this fact has been ascertained, seven or eight fowls are kept in each compartment, twelve feet by three feet, and there is no smell or trace of moisture. It should be stated that the droppings that fall from the perches during the night are removed from the runs each morning, and that the dry earth only receives the manure that falls during the day; this has its moisture absorbed so speedily by the earth, that it at once becomes pulverized, mixes with the soil and ceases to smell. So powerful is the deodorizing effect of the earth that it does not require to be renewed in the runs for many weeks together.

THE following receipts for preserves are from Mrs. Putnan's Recipe Book:

Quinces.—The orange quince is the best to preserve. Peel and core the quinces, weigh a pound of crushed sugar to a pound of quinces; put the peel and cores into a kettle with just enough water to cover them. Let this simmer about two hours; then strain the liquor, put it back into the kettle, and put in as many quinces as the liquor will cover; boil them until they are tender, take them out and put them on a flat dish to cool; put in more until all are boiled, then put the sugar in, and let it boil until it becomes a syrup; then put in as many quinces as the syrup will cover; let them boil about thirty minutes; put them on a flat dish to cool; and then more until they are all boiled; then boil the syrup until all the water is boiled out of it. When the quinces are cool, put them into the jars and strain the syrup while it is hot through a very fine sieve on the quinces.

Peaches.—Weigh to a pound of peaches a pound of sugar; put the peaches into a preserving kettle, and turn on boiling water, enough to just cover them, and let them boil ten minutes. Take them out carefully on a flat dish to cool, then peel them with your fingers, to keep the shape, take a little of the water that they were boiled in, add the sugar, and let it boil until it becomes a syrup. Put in a few peaches at a time, so as not to crowd them; when they are done put them on a dish to cool. Lay them carefully into a jar, boil the syrup a few minutes after the peaches are down, and strain it hot over the peaches.

Another Mode—Peel the peaches; weigh a pound of sugar to a pound of peaches; strew half the sugar on to the peaches, and let them stand over night. Next day turn off the syrup, and add the rest of the sugar; boil the syrup about fifteen minutes; put in the peaches and boil them until they are tender; take them out to cool, then put up in jars and strain the syrup hot into them; let them stand two or three days. If the syrup has become thin at the top of the jar, turn the peaches into a preserving kettle, give them one boil, and put them into jars when cold. Put paper wet with brandy over the mouth of jars, and then a bladder over it, and tie them up.

Boiled Custard.—To one quart of milk add four well beaten eggs and a cup of white sugar; flavor with lemon or vanilla. Put this in a tin pail, which set in a kettle of boiling water, letting it remain until the custard just boils then remove to a cool place.

California Cakes.—One cup of butter, two cups of sugar, three eggs, one cup of sweet milk, two teaspoonsful of cream tartar, one of soda, three and one-half cups of flour. Flavor with lemon.

To Cook Vegetable Oysters.—Dress the roots nicely and cut in slices one-fourth of an inch thick, boil in water till tender; have some slices of bread toasted and placed in a deep dish; add sweet cream to the oysters and season with butter, salt and pepper to suit the taste; let it boil a minute or two and turn over the bread; cover the dish a few minutes, and it is ready for use. Or roots may be cooked and served as their namesake.

Boiled Indian Pudding.—Take one pint of sour milk, half a teacup of molasses, two tablespoonfuls of butter or lard, one teaspoonful of soda, one half cup of chopped raisins, or any kind of fruit; stir in cornmeal as thick as can be stirred. Boil two hours in tin pudding dish, with a lid to shut tight, leaving room to rise. Serve with sugar and cream, flavored with lemon or vanilla or sweet sauce or syrup.

Corn Puffs.—Six heaping tablespoonfuls of flour, three of corn meal, three eggs, one pint of milk, one ounce cloves, one ounce allspice, half ounce cayenne pepper, two ounces mustard seed, and boil the whole three hours.

A Cheap Omlet.—A large cup of bread crumbs, soaked in milk and beaten soft; four eggs, yolks and whites separately beaten; salt and pepper to taste. Fry in lard or butter and turn out on a dish the size of the pan in which it is cooked.

To Remove Grease Spots.—Make a batter of wheat flour and cold water, and apply to the wrong side of the cloth; dry slowly by the fire, and when perfectly dry rub off the flour and the grease will be found missing. Very thick woolen goods may sometimes require a second application.

Receipe for Colonge.—For one gallon of alcohol take one ounce and a half of oil of bergamot, one ounce of lemon, quarter of an ounce oil of nutmeg, quarter of an ounce oil of rosemary, quarter of an ounce oil of lavender, and two grains of musk. A less quantity can be made by using the same proportion.

Pears.—Pears, like peaches and quinces, should be put in cold water immediately after paring, to preserve the color. Let them boil until tender. Fill the jars and fill with hot syrup; seal immediately.

A Cheap and Delicious Pudding.—Take four tablespoonfuls of flour, which mix gradually into a quart of milk; add the yolks, well beaten, of four eggs, reserving the whites of the same until a moment before placing in the oven; grease your dish and pour in the above mixture, and bake in a quick oven fifteen or twenty minutes. Eat with any kind of sauce you choose.

SPECIAL NOTICES.

SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. my19:151-d&F

AUCTION SALES.

GRAND PUBLIC SALE OF CITY VIEW LOTS AND BUILDING SITES, SUBURBS OF ALLEGHENY CITY.

On WEDNESDAY, September 15 h, at 3 o'clock, will be sold on the premises, 3 lots of 5 acres each, 3 lots of 1 and 2 acres each, and 20 various sized building lots, at City View, near Woodville, in Reserve township, one mile from Allegheny Diamond, by the Sawmill Valley Plankroad, known as the lower road to Perrysville. Directions, plans terms and full particulars given at the auctioneer's office. It will be necessary to visit these grounds before an adequate conception of the eligibility of these lots can be obtained. They command very fine views of both cities and their surrounding eminences. Several are covered with fruit. The avenues are wide and of easy grade. Persons in quest of desirable lots, at low prices, cannot do better than give this sale attention. Now is the time to buy when times are dull. Higher prices will prevail when things liven up. This property has been laid out by Mr. Jonathan Gallagher, which is sufficient guarantee that the utmost liberality will prevail. These lots embrace city and country privileges 10 years' growth of fruit, and being just outside the city limits are much more lightly taxed.

Yesterday afternoon another company of boarders, thirteen in number, were taken from Warden Scandrett's mansion to Claremont.

A gang of fifty workmen broke ground on a road to be made for the ascent of Seminary Hill, according to the plan of the Park, yesterday.

Fined.—John Hoge was fined five dollars yesterday by Mayor Drum for resisting an officer and tearing the official's garment while being arrested for drunkenness.

The Campmeeting at Blairsville, by the colored people, commences on the 16th inst. The opening services will be conducted by Revs. Drs. Matthews and Williams.

Committed for Trial.—John Grimm, charged before the Mayor on oath of Chief Hague with the murder of James Shovlin, waived a hearing and was committed to jail for trial, yesterday.

The Members of the Select and Common Councils are requested to meet at the Mayor's office this morning at nine o'clock to make arrangements for the reception of his Excellency General Grant.

Rev. R. A. Arthur, a well known minister of the M. E. Church, stationed near Wheeling for the past two years, has been transferred to the Cincinnati Conference and appointed to Manchester Station, Adams county, Ohio.

Lawrenceville.—The Republican meeting announced to be held in Lawrenceville this evening, has been postponed until Thursday evening, in consequence of the demonstration on account of the presence of President Grant in the city.

Disorderly.—Mary Miller made information before the Mayor yesterday, charging Neely Burns and Tim McAverney with disorderly conduct. She alleges that they attempted to break her door down. A warrant was issued.

Fisticuffs.—Frederick Groseheing appeared before Alderman Bolster yesterday and complained that Henry Weisner struck him on the head with his fist. The official instructed officer Poland to look after the pugilistic Henry.

Public Sale of Building Sites.—One of the most attractive sales of the season comes off to-morrow at three o'clock on the Sawmill Valley Plankroad. Buyers of one, two, three and five acre lots will have a first rate opportunity for selection. See advertisement on the seventh page by A. Leggate, Auctioneer.

Fatal Accident.—Mr. A. Hazel, residing on the Smith farm, near Oakland, was severely burned by the explosion of an oil lamp Sunday, from the effects of which he died at eight o'clock yesterday morning. Coroner Clawson has been notified, and will hold an inquest this morning.

Alleged Embezzlement.—George W. Wilson alleged before Alderman McMasters, yesterday, that A. C. Sturgeon, residing at McDonald Station, Panhandle Railroad, had procured from Gay and Welsh $114,60 worth of butter, which he sold, and retained the proceeds. Officer Blondin went in search of the accused.

Lost.—Between Strawberry alley and the Monongahela bridge, on Friday last, three army discharges, two from the volunteer and one from the regular army. The three were tied together. Any one finding them will confer a favor on a soldier who served his country for eight years, by leaving them at this office.

Still There.—John Mayer, a crippled German, who was some time since an inmate of the "City Home," was arrested on the streets on Saturday and taken to the lockup, where he still remains. We learn that the proper authorities have been notified of his presence there, but no steps have as yet been taken for having him removed. Who is to blame?

The Deaf Mutes of Pittsburgh and Allegheny cities held a meeting at the public hall in the Franklin street School House, last Saturday night, to establish a Deaf Mute Literary Association. A list of the names of the deaf mute gentlemen elected were as follows: Wm. R. Drum, President. Geo. W. Hartley, Vice President. Sam'l Davidson, Secretary. A. Woodside, Lecturer.

Sixteenth Ward Geary Club—Election of Officers.—The Sixteenth ward Geary club held a meeting at Gangwish Hall last Thursday, September 9th. An election for permanent officers was then held and resulted as follows: President, A. B. Boal; Treasurer, Robert Watson; Secretary, John Robb; Captain, R. H. Smith; First Lieutenant, James Crumley; Second Lieutenant, August Dershafer; Color Bearer, Robison Hilson.

Tavern Robbed.—The money drawer in the bar-room of Corve's tavern, Grant street near Seventh avenue, was robbed of thirty dollars sometime Saturday night by thieves who forced open the front door, and disappeared the same way after, securing the booty. The operators also helped themselves to several bottles of the choicest liquors and a quantity of cigars which were found on the counter. No clue.

Bold Operator.—Sunday night some bold operator forced open the door of Hartung's shoe store, Federal street, Allegheny, and having gained admittance to the interior leisurely selected seven of the best pairs of boots, together with as many ladies shoes and gaiters as he could carry, with which he made off. He succeeded in escaping the vigilance of the private watchman, who is employed on that square.

The "Panhandle" Collision.—The jury summoned by Justice Archer, of Brooke county, to investigate the circumstances attending the death of L. J. Simmons, one of the victims in the collision on the Panhandle Railroad, near Steubenville, a few days ago, after examining a number of witnesses, returned a verdict: "That the deceased came to his death by the collision of trains No. 26, extra, and Howard's construction train, on the morning of September 10, 1869, through the neglect of the delivery of, or obedience to, orders on the part of some one or more parties in the employ of the Pittsburgh, Cincinnati and St. Louis Railroad Company."

Train Thrown Off—Last evening, about six o'clock, the locomotive of the express train going east on the Pennsylvania Railroad, jumped the track at East Liberty Station. The cowcatcher of the locomotive coming in contact with the small platform for passengers alongside the track, tore it to pieces, but the engine was not damaged. The accident occasioned a delay of about half an hour in the running of some of the trains.

Conference Meeting.—The annual session of the Eastern German Conference of the Baptist Churches, of the United States will commence in the East Birmingham Baptist Church, next Wednesday, and continue until Tuesday of next week. Every evening during the conference, preaching will take place in the church, in the German language. Reports exhibiting the state of the various churches represented, will be read on Thursday.

Insane.—Martin Wackholz, a German, who arrived at the emigrant depot yesterday morning, *en route* from New York city to Winona, having in his possession a through ticket, was endeavoring to jump from the second story window of the depot, about eight o'clock yesterday, when he was arrested and taken to the lock-up where it was discovered that he was insane. He had $12,50 and a number of valuable papers in his possession. He is still in the lock-up.

The Master Mechanics' banquet at the Monongahela House, on Thursday evening, promises to be a grand affair, As long ago as Sunday last we were told that the cuisine department of the house was fully occupied, and proposes to quite outdo itself. If the Master Mechanics from abroad get it into their heads that the Master Mechanics of Pittsburgh are in the habit of living in this style, we think one of the most importent and respected class of our population, will be largely increased in numbers shortly.

A Curiosity.—Yesterday the reading room of the Allegheny Library Association was ornamented with a curiosity, the head of an immense moose, which had been forwarded from St. Louis by Captain J. T. Stockdale. The head is one of the largest ever seen, measuring two feet in length and one foot across between the antlers. The distance from tip to tip of the antlers measures four feet. The curiosity will be handsomely mounted in a few days and placed in position in the reading room.

Inquest.—Alderman Donaldson yesterday morning held an inquest on the body of Wm. Wall, drowned while swimming Sunday afternoon at the mouth of Chartiers creek. The jury returned a verdict of accidental drowning. The little victim made a desperate struggle before going down, as the marks of his fingers, made in clutching for a hold, were plainly visible along the bank at the water's edge for a distance of several yards down stream. The bank was very bluff and the water deep at the point where he was drowned. He was about eleven years of age.

Collision.—Yesterday morning a collision occurred on Wylie street, near Tunnel, between a milk, and an ice wagon. The horses attached to the milk wagon became frightened and ran away. The occupant, a woman, was thrown out and dragged some distance along the ground. When picked up it was ascertained that two of her ribs had been broken, besides which she had been painfully but not seriously bruised. The runaway horses succeeded in getting the wagon demolished, when they were secured. The animals in the ice wagon also ran away, but were checked by the breaking of the tongue of the vehicle.

The Sharpsburg Drowning Case.

Willie Kay is the name of the little boy drowned in the Allegheny river at Sharpsburg Saturday evening. He was the only son of James Kay, of that place. The buggy in which he was seated, in company with a one-armed soldier, was driven into the river to be washed, but getting into too deep water the vehicle commenced to float and the occupants jumped out. The soldier succeeded in reaching the shore but the boy was drowned. The victim was about eleven years old, four feet in height, light complexion and hair. He wore no shoes, was dressed in a pair of Kentucky jeans pants and barred flannel shirt, the sleeves of which were patched with a different piece of goods. The body has not yet been recovered.

Resolutions of Respect.

At a meeting of the Board of Directors of the American Bank, held this day, the following action was taken in reference to the death of James Marshall, Esq.:

Whereas, It has pleased God in the all-wise dispensation of providence to remove from time to eternity our esteemed friend James Marshall, Esq., (brother of Thomas M. Marshall, a member of this Board) and for more than a third of a century the tried and intimate friend of our President; and *whereas*, Our feelings prompt us to give some formal expression of our regard for him, therefore be it

Resolved, That we feel deeply the loss we have sustained in the death of one endeared to us by so many ties, and that we will long cherish a grateful recollection of his acknowledged worth; that in his removal we have lost a dear friend, a judicious counsellor, a man of sterling integrity, and society a benefactor.

Resolved, That while the experience, judgment and firmness of our deceased friend, pre-eminently qualified him for the discharge of his duties, and commanded our highest respect and confidence, the uniform courtesy and kindness which characterized his relations with us individually, gave him a peculiar claim to our esteem and affection, and tenders his loss to each of us in no small degree a personal bereavement.

Resolved, That we deeply sympathize with the afflicted family who have thus been bereaved of a husband and father, and that we commend them to that God who has promised to be a husband to the widow and a father to the fatherless.

Resolved, That a copy of these resolutions be communicated to them and entered on the minutes of the Board.

At a meeting of the Board of Directors of the Allegheny Gas Company, held September 13th, 1869, the following preamble and resolutions were unanimously adopted:

Whereas, God in his Providence has seen fit to remove James Marshall, our worthy and energetic President from among us, who for eleven years has occupied, with unexampled succes and confidence that position: therefore be it

Resolved, That in his death the Allegheny Gas Company has met with an irreparable loss, and the community a public spirited citizen, an honest and unselfish christian man, and that we sympathize with his family in this, their hour of affliction and sorrow.

Resolved, That a copy of these resolutions be sent to his family, and also be published in the daily papers.

John Brown, Jr., Secretary.

THE COURTS.

Quarter Sessions--Judge Mellon.

Monday, Sept. 13.—The case of the Commonwealth vs. D. O'Neill and A. W. Rook, indicted for libel, Jas. B. O'Neil prosecutor, was the first case called. A. M. Brown, Esq., ceunsel for defendants, moved to quash the indictment. Mr. Swartzwelder said that he had no objections to having the bill quashed, but the reasons assigned therefor were not sufficient. There were various reasons, however, why he would not object to the motion to quash. The bill was quashed.

The next case taken up was that of the Commonwealth vs. Patrick Markey, indicted for perjury, W. C. Coffin, prosecutor. It appears that Markey, the defendant in this case purchased a pair of boots from Mr. Coffin the prosecutor, which after taking home his mother compelled him to return. Mr. Coffin refused to take the boots back, and the boy alleges that he went off and left the boots lying on the counter of Mr. Coffin's store. A suit was brought against Mr. Coffin for the value of the boots before Alderman Neillie, who gave judgment for the plaintiff in the sum of $4.50. At this trial the defendant in this case Patrick Markey, it is alleged, testified to leaving the boots at Mr. Coffin's store, which fact Mr. Coffin alleges was false and untrue. The jury returned a verdict of guilty, and reccommended the prisoner to the mercy of the Court. Mr. Morrison, counsel for the defendant, filed exceptions to the rulings of the Court and moved for a new trial.

District Attorney Pearson asked for a rule on Alderman Edward Lynch to show cause why informations in his office have not been returned. Rule granted and made returnable forthwith.

The next case taken up was that of the Commonwealth vs. Henry Ready, indicted for larceny, Patrick Garvin prosecutor. The prosecutor alleges that Ready took twenty-two dollars in money and a watch valued at fifteen dollars and a pocket knife. The larceny was committed while the prosecutor was asleep in a hotel in Allegheny. The money was found in the possession of the defendant when arrested and the watch was found in the bed-room where Ready had been sleeping. The jury returned a verdict of guilty without leaving the box. The Court sentenced the prisoner to the Western Penitentiary for one year.

Court adjourned to meet at half-past nine o'clock Wednesday morning.

Suit Against Steamboatmen.

At St. Louis a suit has been commenced by one Frank Mooney, against Geo. J. Hazlett, T. W. Bedard and Hiram K. Hazlett, owners of the steamboat "Flirt," of which G. J. Hazlett was Captain and John Garrett, Mate, for damages in the sum of $5,000. He represents that in April last he entered into an agreement with the parties named for a trip up the Missouri to Fort Benton and return, was to receive forty-five dollars per month as consideration for his services; that he performed the terms of the contract, but that defendants, when the steamer was ninety miles from Fort Buford, refused to carry him further on the boat, and left him on an island in the Missouri river, wounded and sick, by which his life was endangered and his health impaired, the country being only inhabited by hostile Indians.

Information of the case was conveyed to Commissioner Davis, at St. Louis, by a note from Fort Buford, Dacota Territory, the purport of which was:

Frank Mooney, of St. Louis, having entered upon the duties of deck hand on the steamer Flirt, Capt. Hazlett bound up the Missouri river, for the mountain trade, received from the hands of the Mate, John Garrett, of Pittsburgh, on said steamer Flirt, injuries, by the striking of the lead used on all the steamers ascertaining the depth of water, on the head; also, from the discharge of a pistol, a wound in the mouth. He was left ashore in a hostile Indian country, without food or fire-arms for his protection. He was captured by a party of hostile Indians, who threatened his life, and was tied up by them to a tree three hours. A council of war was held, and had it not been for the interceding of the warriors' squaws and the wounds he received he would have lost his life. They took all of his clothing and left him on the plains. The steamer Tacony picked him up on the banks of the Missouri river, in a famishing and dying condition, and he was placed in a hospital under treatment.

The man had a gold ring on his finger, and the Sioux Indians, in order to get the ring, girdled the finger with a knife and pulled the skin off the finger, the same as they would skin a squirrel. The scars on the man seem to corroborate his statements.

Eighth Ward Primary Meeting.

At a meeting of the citizens of the Eighth ward, Pittsburgh, held on Monday evening, the following persons were named to select from as candidates for ward officers:

Select Council—Joseph Marshal and Wm. H. Glenn; Common Council—W. G. Dunseath, Geo. F. Morgan, Jos. Moore, Geo. Booth, Geo. B. Chalmers, A. J. Reynolds, I. N. Coursin, Emanuel Ecker and James Little; School Directors—John S. Lambie and Charles Martin: Constable—Geo. Cochrane, Jr., and J. W. Bell; Judge of Election—H. Y. Boyce, G. S. Rodgers and J. R. Neuman; Inspector of Elections—Wm. Kerr, James Moore and E. S. Gardner; Return Inspector—Jas. H. Hartman and John Kemp.

The Humboldt Celebration—The Picnic at Millvale—President Grant likely to be Present—Gen. Sherman orders a Detatchment of Artillery From the Allegheny Arsenal to Unite with the Procession.

The Executive Committee met again yesterday afternoon, Dr. Ehrhardt presiding. The Committee of arrangements wished to emphasize the fact, that the station at which the picnic is to be held to day, is Millvale, and not Roup's, although the latter name has been erroneously announced. Roup's station is a mile beyond.

The fund has been increased to nearly $3,000.

Mr. Meyran, Chairman of the Monument Committee, reported every thing in readiness. Messrs. Lemon & Wiese have lent the furniture for the Masonic Lodge at the Monument, and Messrs. Demmler & Bro., contributed the copper box which is to be placed in the corner stone; containing the following articles:

List of articles to be deposited in the corner stone of the Humboldt Monument:—Gazette, Commercial, Dispatch, Post, Chronicle, Mail, Freiheit's Freund, Volksblatt, Republikaner, Familien Blaetter, Barbier Stube, Presbyterian Banner, Catholic, Leader, Sunday Republic, Daily Republic, Christian Advocate, Mirror, United Presbyterian, Leisure Hours, Manuscript History of the movement to erect a Monument, German and English Medallion, Programme of Concert, Copy of Masonic Ceremonies, a Badge, Photograph of Monument, miniature bottle of German wine, Dr. Meinertzharen's Oration, Mr. Moore's Oration, American coin, Telegram from Blæser, Map of Pittsburgh in 1795, Fractional Currency of 1869, German Poem on Humboldt, by Karl Reuber, of Pittsburgh, Mr. Kleber's Symphony, with accompanying Poem by Rev. C. Weitershausen.

Arrangements have been made to connect Pittsburgh with all other American cities celebrating the day, and to announce to them, as well as to Professor Baron Liebeg, at Munich, the beginning and the end of the ceremonies.

Gen. Negley very kindly telegraphed to General Sherman, asking for the use of some artillery with which to fire salutes. Yesterday the following reply was received:

Gen. J. S. Negley:—Telegram received. A detachment will be ordered from Allegheny Arsenal to unite in the Humboldt Celebration, and fire such salutes as you may desire. W. T. Sherman, General.

A Committee consisting of Messrs. Charles Meyran, August Harble and Dr. Meinertzhagen was appointed to telegraph to General Grant and *suite*, inviting him to attend the festival at Millvale to-day, and to co-operate with the Committee of Reception. It is thought that very probably the General will accept.

In consideration of the double importance of to-day, as the anniversary of Humboldt's birth, and as bringing the President of our choice to our city, we once more urge the propriety of every one owning a flag, putting it out. If the weather is as good to-day as it was yesterday, we may well look for such a demonstration as we have never before had, excepting for political purposes.

A special meeting of the Allegheny Councils was held last evening, at which a Committee (noted elsewhere) was appointed to receive and tender the hospitalities of the city to General Grant.

The Councils also resolved to participate in a body in the Humboldt Centennial services. For this purpose they will assemble in carriages at City Hall, this morning at eight o'clock, from whence they will proceed in carriages to join the procession.

The badges which are necessary to be worn in order to secure passsage to and from and entrance to the picnic can be procured at Turner's Hall, on Sixth avenue, either singly or in large numbers for companies or societies. It would be well to procure these, if possible, before going to the laying of the corner stone, in order to avoid confusion at the cars.

The Concert.

Since the Sænger Festival of 1858 Pittsburgh has not since had a more fashionable or appreciative audience and a better house listening to home artists than last evening at the Academy of Music. Mrs. Mellor and Miss Rinehart never sang more sweetly in any previous concert in their duet "*Quis est Homo.*"

The chorus "On the Open Sea;" by the combined singing societies, was rendered in manner far exceeding anything ever produced in Pittsburgh by our singing societies. For the first time these societies have shown the beauty and full power of four part male voices. Special mention should be made of the rendition of the solo part of Mr. Louis Brecht in this chorus.

The classic athletics represented by the Turners, shows that society to be in a flourishing condition. Their performances will testify with what care the pupils of that institution are trained. We can well imagine the labors of the instructors, before young men can develope such muscular strength and agility—Mr. Konrad, the instructor, merits the thanks of all admirers of this manly art.

The Turner society is equally up to the highest expectation for the grouping of tableaux vivant.

The climax of the singing was the Quartette Rigoletto, by Mrs. Mellor, Miss Rinehart, Mr. Paul Zimmerman and Mr. Edwards.

The second chorus of the singing societies, although well rendered, did not come up to the expectation of the admirers of male choruses. The piece did not make that favorable impression it should have done—a lively chorus would have suited better for the occasion, while this piece belongs more property to the character of sacred music.

Taken altogether, the concert was a complete success, as near as possible artistically and financially.

Distressing.

Mention was made a few days ago of the sudden disappearance of Bechtold Fisher, aged fifteen years, from his residence No. 87 Spring Garden avenue, Allegheny. The lad it seems left home on account of some restraint to which he was subjected, and has thus far eluded the most vigilant search, although it is surmised he is not far away, having no money with him at the time he disappeared. His mother became very anxious and troubled about the matter, so much so, that her mind finally became affected, and it was found necessary to convey her to an Asylum. She labors under the impression that he has been killed and calls his name incessantly, in a very affecting manner.

Escape of Prisoners.

On Sunday, three prisoners confined at the office of Deputy Mayor Cartwright, at East Liberty, made their escape. They had been arrested on charges of drunkenness and disorderly conduct, and were awaiting a hearing. But they didn't wait. The Police Committee of Councils should lose no time in providing a secure lockup for the East Liberty district. The large number of arrests made by the efficient police on duty out there demands it.

Western District Pennsylvania,
U. S. Internal Revenue,
Supervisor's Office, 22d Dis't, Pa.,
Pittsburgh, September 10, 1869.

Russell Errett, Esq., Assessor Twenty-second District Pennsylvania.

Sir: As the Excise Laws, so far as they relate to stamps on "canned meats, &c.," and "perfumery and cosmetics," appear not to be understood by the dealers in these articles, and sales are daily being made, in violation of law, I beg to ask that you will instruct your several Assistant Assessors to call upon the trade in their respective divisions and fully post them as to the requirements of the law. I beg to quote from series 5, No. 10, the list of "canned" articles now liable to stamp duty, viz.: 'For and upon every can, bottle or other single package containing fish, sauces, syrups, prepared mustard, jam or jellies, contained therein, and sold, or offered for sale, or removed for consumption in the United States, * * * when such can, bottle, or other single package, with its contents, shall not exceed two (2) pounds in weight, one (1) cent.

"For every additional pound or fractional part thereof (1) one cent. Also, to refer you to section 169, Act June 30, 1864, as amended, (page 124, compiled Act March 26, 1867) under which all *imported* articles named in schedule C. are made liable to the same duties as those of domestic manufacture, and every person *exposing* or offering for sale any such article held 'to be the manufacturer thereof.' Series 5, No. 10, also sets forth the proper form of cancellation of the stamps, as follows:

"The general stamp must be cancelled by writing or printing thereon *in ink* the initials of the proprietor of the stamped article, (and where goods are required to be stamped by the dealer, the dealer is held to be the proprietor,) and the *date, day, month* and *year* of cancelling."

"The private stamp must be so affixed on the package that in opening the same the stamp shall be effectually destroyed. After parties shall have been duly advised, should any persist in selling without stamps, it should be understood that not alone the goods unstamped, but all the property on the premises where such sales are made is forfeited to the United States.

Very respectfully,
(Signed) D. S. Southworth,
Supervisor, W. D. Pa.

Serious Accident.

Yesterday morning as a drove of cattle were being driven along Jackson street, Second ward, Allegheny, one of them, exhibiting every symptom of madness, broke away, and in its flight gored a horse upon which a gentleman was riding. The horse was thrown down but recovered and started to run away. The gentleman's foot having caught in one of the stirrups he was dragged some distance and received several kicks from the heels of the affrighted runaway. He was picked up for dead, but when taken into a neighboring house revived somewhat under medical treatment. His injuries are quite severe, but it is thought he will recover. We could not ascertain the name. Later in the day he was removed to his residence. The horse was secured after it had run a short distance, and was found to be very severely cut in the shoulder, but not sufficient to impair its usefulness hereafter.

Interesting Occasion.

The Cool Spring congregation of the Cumberland Presbyterian Church have displayed their enterprise and energy in the erection of a substantial brick church, finished externally and internally in a neat and tasteful manner, at a cost of $8,000. The edifice is beautifully located on the Franklin road, about six miles east of Mercer, and is convenient of access by all the residents of the surrounding country.

Last Friday the dedicatory exercises took place, consisting of a sermon by the Rev. E. K. Squiers, of this city, an address, containing a history of the organization by the pastor, Rev. J. M. Gallagher, and the dedicatory prayer by the Rev. Joseph Bowman, of Snodgrass, Pa. The exercises attracted a very large attendance, numbering members of all denominations in the locality and the pastors of the neighboring churches.

Experienced

And impartial judges are ever ready to admit that as a piece of faultless mechanism the New Weed "Family Favorite" Sewing Machine has no superior among any, and no rival among shuttle machines. To this essential fact, as well as to its remarkable working qualities, may be attributed its astonishingly unprecedented sale in this vicinity over its competitors, who have been in the field for a long time, and boast of their datage of a respectable aggregate of sales extending through a period of fifteen years. The "Family Favorite" is but a little over a year old, and yet we assert to-day, with the most unaffected modesty and sincerity, that its sales in this vicinity far exceed those of any other machine before the public. Such facts need no comment. The agency is at 116 Market street.
